TikTok Cultures in the United States Trevor Boffone, 2022-04-03 TikTok Cultures in the United States examines the role of TikTok in US popular culture paying close attention to the app's growing body of subcultures. Featuring an array of scholars from varied disciplines and backgrounds, this book uses TikTok subcultures as a point of departure from which to explore TikTok's role in US popular culture today. Engaging with the extensive and growing scholarship on TikTok from international scholars, chapters in this book create frameworks and blueprints from which to analyze TikTok within a distinctly US context, examining topics such as gender and sexuality, feminism, race and ethnicity, and wellness. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries. **The Routledge Companion to Children's Literature and Culture** Claudia Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30 Focusing on significant and cutting-edge preoccupations within children's literature scholarship, *The Routledge Companion to Children's Literature and Culture* presents a comprehensive overview of print, digital, and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature. Describes the major media formats and genres for texts expressly addressing children. Considers the production, distribution, and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content. Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed other, and in recent decades increasingly foregrounding
