King,Thomas D. Cox,2011-01-01 This book is provided as a guide encouragement and handbook for faculty to introduce digital media in language you can understand and provide strategies and activities you can quickly assimilate into your teaching We are excited that more people will be able to benefit from the powerful help and guidance contained in this book We are even more exhilarated as we anticipate how each of you will discover applications and new directions we would never anticipate and look forward We look forward to your innovations as you use the material you discover here This book responds to the needs of our changing world and students by revealing innovative technology applications and how faculty are and can use digital media in teaching in higher education because faculty make the quickest changes and learn how to do it best It is a valuable resource for faculty from faculty because it allows the sharing of successful teaching experiences with digital media with our worldwide colleagues so they may modify it extend it and improve it Moreover in our work with faculty across all disciplines we also find that many struggle to think about teaching in ways in which they can incorporate technology meaningfully While we might be experts in our discipline chemistry

philosophy music etc due to the curriculum of terminal degrees we might not have strong preparation in instructional design We have been fortunate to bring together faculty experts across different disciplines to specifically speak about how and why to use digital media in higher education settings We realize we are asking you to think about your way of teaching with new ideas and strategies Therefore we try to illustrate them with clear examples These different approaches include clear descriptions of what these activities look like why to develop and implement them and how to do so for your specific needs
