EBK: Services Marketing: Integrating Customer Service Across the Firm 4e Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2020-10-07 Successful businesses recognize that the development of strong customer relationships through quality service and services as well as implementing service strategies for competitive advantage are key to their success. In its fourth European edition, *Services Marketing: Integrating Customer Focus across the Firm* provides full coverage of the foundations of services marketing, placing the distinctive Gaps model at the center of this approach. The new edition draws on the most recent research and using up to date and topical examples, the book focuses on the development of customer relationships through service, outlining the core concepts and theories in services marketing today. New and updated material in this new edition includes New content related to human resource strategies including coverage of the role of robots and chatbots for delivering customer focused services. New coverage on listening to customers through research, big data, netnography and monitoring user generated content. Increased technology, social media and digital coverage throughout the text including the delivery of services using mobile and digital platforms as well as through the Internet of Things. Brand new examples and case studies added from global and innovative companies including Turkish Airlines, Volvo EasyJet and McDonalds. Available with McGraw Hill's Connect, the well established online learning platform which features our award winning adaptive reading experience as well as resources to help faculty and institutions improve student outcomes and course delivery efficiency.

Advances in the Human Side of Service Engineering Christine Leitner, Walter Ganz, Debra Satterfield, Clara Bassano, 2021-07-02 This book reports on cutting edge research and best practices in developing innovative service systems. It covers issues concerning the suitability of a given system for human use, human services and excellent human experiences. It explores a wide range of ways in which human factors in engineering, ergonomics, human computer interaction, HCI, cognitive engineering and many other disciplines can contribute to the design and management of service systems. It considers aspects related to cost effectiveness, ethics and privacy among others and covers applications in many areas from healthcare to education, transportation and the economy. Based on the AHFE 2021 Conference on the Human Side of Service Engineering held virtually on 25-29 July 2021 from USA, this book provides readers with a comprehensive overview of current research and future challenges in the field of service engineering together with practical insights into the development of innovative services for various kinds of organizations.

Barnes,2001 When executives hear the term customer relationship management CRM they often break out in a cold sweat amid visions of six or seven figure implementations of staggeringly complex systems But

have no fear you won't stumble over such looming obstacles in James G Barnes's book. Rather he chooses an old-fashioned approach to CRM actually building relationships with your customers. Barnes provides a variety of techniques to accomplish this basic task. Some of his suggestions are fresh and inspired while others will sound pretty familiar to anyone in business. Either way he documents them with his own thorough research and insightful accounts from other writers. Some readers will miss the nuts and bolts technical analysis that has come to define the modern concept of CRM but getAbstract recommends this book to executives, marketing professionals and customer service managers who want to get back to traditional business values.
