FY2025-FY2027 Medium-Term Budget International Monetary Fund. Office of Budget and Planning, 2024-05-10 The Executive Board of the International Monetary Fund approved the 2025-27 financial years FY25-27 medium term budget While the global economy has shown resilience to successive adverse shocks the overall global economic context remains complex with slow and uneven growth increased fragmentation deepening divergence and still high interest rates despite easing inflationary pressures Against this backdrop the FY25-27 budget continues to be guided by principles of agility and budget discipline reinforced by ongoing reprioritization and savings capture It also builds on strong cooperation with other institutions ensuring the Fund continues to focus on areas within its mandate even as it addresses new demands Work to strengthen internal operations also continue focusing on both efficiency and effectiveness in meeting changing needs in the post pandemic workplace where rapid technological changes are underway With significant demands within a constrained budget environment the budget reflects difficult tradeoffs

Education and Development Walter W. McMahon, 2000-01-27 This book develops a new approach to measuring the total returns to human resource development through investment in education Drawing on microanalytic foundations it uses regional and worldwide data to estimate the net marginal contributions of education and new knowledge both to economic growth and to wider effects on democratization human rights political stability health net population growth rates reduction of poverty inequality in income distribution crime drug use and the environment The total impact of

education policy changes on endogenous development is then estimated using an interactive model This new approach is important to industrialized and developing countries alike The diffusion of knowledge and the adaptation of new techniques has been identified as crucial to the growth process in the new endogenous growth models and is of increasing strategic importance in current knowledge based globalizing economies Similarly the non monetary returns from education are important in improving human welfare Measurement of these non market returns is a crucial but much neglected subject It has proved frustrating and existing microanalytic measures have proved piecemeal The new approach developed here offers some comprehensive estimates and simulation techniques for finding more cost effective policies and also suggests new hypotheses for further microanalytic testing

Interstate 93 Improvements from Salem to Manchester, Hillsborough and Rockingham Counties, 2004 *Alabama Business*, 2001 **Nepal** International Monetary Fund. Asia and Pacific

Dept, 2025-10-06 Nepal has so far been relatively insulated from recent global trade and aid related disruptions given its small export sector Economic activity has continued to gradually recover underpinned by a rebound in construction and manufacturing continued expansion of hydropower and a good harvest that helped offset the impact of the September 2024 floods Growth in FY2024/25 is estimated to reach 4.3 percent although still below potential Inflation is expected to remain within the Nepal Rastra Bank's target of about 5 percent The external position has strengthened with robust growth in exports remittances and tourism outpacing the recovery in imports Despite improved growth non performing loans have continued to rise eroding bank capital The financial health of the savings and credit cooperatives remains challenging

Review of the Fund's Capacity Development Strategy—Towards a More Flexible, Integrated, and Tailored Model International Monetary Fund. Institute for Capacity Development, 2024-04-09 Capacity Development CD comprising technical assistance and training fosters economic development by improving human capital and institutions in member countries Every five years the IMF reviews its CD Strategy to ensure that CD continues to be of high quality and well focused on the needs of its members This review calls for CD to become more flexible integrated with the Fund's policy advice and lending and tailored to respond to member needs The review benefitted from the recent independent evaluation of the Fund's CD and a wide range of inputs including internal and external consultations surveys of recipients and development partners staff background studies and recommendations of an External Advisory Group The vision for CD is informed by the Fund's comparative advantages and surveillance priorities The proposals of the current review center around the six key areas 1 strengthening CD prioritization and integration 2 enhancing the funding model 3 strengthening monitoring and evaluation 4 modernizing modalities 5 enhancing field presence and 5 strengthening human resources policies for staff working on CD **Leisure, Sport and Tourism, Politics, Policy and Planning, 4th Edition** A J Veal, 2017-05-05 The gap between theory and practice in the leisure sport and tourism studies areas seems to have widened as scholars have become more specialized Nevertheless it is imperative that students be as familiar as possible with a wide

range of social and political theory and also be able to reconcile that knowledge with their own current and future roles as practicing professionals As well as extensive updating of sources this new edition examines such topics as libertarianism theocracy anti establishment politics and the concept of generations A new chapter presents discussions of a number of issues and challenges facing the leisure sport and tourism sector Introducing the subject for undergraduate and postgraduate students of leisure sport and tourism this book is also a useful addition to the shelf of any policy maker or practitioner within the industries

Forest Hydrology Mingteh Chang, 2006-05-25 Although a few texts on forest hydrology are available they cover very little if any background on water resources On the other hand books dealing with water resources do not cover topics on forest water relations The one exception to this is *Forest Hydrology An Introduction to Water and Forests* Now with the publication of a revised edition this volume adds information from recent studies to go even further in providing an introduction to forest hydrology that brings water resources and forest water relations into a single practical and comprehensive volume Focusing on processes and general principles the first six chapters provide an introduction and basic background in water and water resources while the last seven chapters look at the impact of forests on water Between these two groupings is a chapter that serves as an entry to the study of forest impacts on water resources describing forests and forest characteristics important to water circulation sediment movement and stream habitat This second edition also features new information on forests and flooding forest and stream habitat snow vaporization processes and GIS methods in hydrology research examples on evaporation estimates and a new appendix on forest interception measurements Employing examples and case studies the book provides tools to help natural resource managers play an active role in policymaking and land use planning and in developing partnerships with stakeholders It also offers unique perspectives for addressing urban sprawl

Kingdom of the Netherlands-Curaçao and Sint Maarten International Monetary Fund. Western Hemisphere Dept., 2024-09-17 Curaçao and Sint Maarten experienced a vigorous post pandemic recovery Growth was underpinned by strong stayover tourism which is outperforming Caribbean peers Headline inflation has declined rapidly notwithstanding a recent uptick led by international oil price developments while core inflation remains elevated In both countries current account deficits improved markedly from pandemic years but remain high Fiscal positions remained strong and in compliance of the fiscal rule Both countries strive to adopt sound macroeconomic policies broadly in line with past IMF advice Annex I The landpakket the structural reform package agreed with the Netherlands in 2020 continues to guide both countries reform agenda

Prospects For Li-ion Batteries And Emerging Energy

Electrochemical Systems Laure Monconduit, Laurence Croguennec, 2018-02-28 The Li ion battery market is growing fast due to its ever increasing number of applications from electric vehicles to portable devices These devices are in demand due to safety reasons energy efficiency high power density and long life duration which drive the need for more efficient electrochemical energy storage systems The aim of this book is to provide the challenges and perspectives for Li ion batteries chapters 1 and 2 at the negative electrode as well as at the positive electrode and for technologies beyond the Li ion with the emerging Na ion batteries and multivalent Mg Al Ca etc systems chapters 4 and 5 The aim is also to alert on the necessity to develop the recycling methods of the millions of produced batteries which are going to further flood our societies chapter 3 and also to continuously increase the safety of the energy storage systems For the latter challenge it is interesting to seriously consider polymer electrolytes and batteries as an alternative chapter 6 This book will take readers inside recent breakthroughs made in the electrochemical energy systems It is a collaborative work of experts from the most known teams in the batteries field in Europe and beyond from academics as well as from manufacturers The Constitutional Year Book, 1905 Parliamentary Papers Great Britain. Parliament. House of Commons, 1907 **Republic of Armenia** International Monetary Fund. Middle East and Central Asia Dept., 2024-12-17 Economic activity remains strong but moderating as transitory trade remittances and capital flows peter out The outlook is positive with growth expected to reach 6.0 percent in 2024 and to converge gradually to its long term rate Inflation has picked up very slowly and is expected to remain below the CBA's inflation target in the short term weighed down by low food and energy inflation dram appreciation and the lagged effect of tight monetary policy Geopolitical tensions a slowdown in main trading partners and a possible reversal of capital flows remain the main risks to the outlook
