Digital Research, Revised Edition Ananda Mitra,2020-03-01 Every digital tool from personal music players to the computers used to land spacecrafts on Mars is built around the basic principles of the binary number system In the 17th century German mathematician Gottfried Leibniz demonstrated that all numbers could be represented using only two digits 0 and 1 His system allowed scientists to combine the digits to do computations and store information in a way that was simple and easy to interpret Modern digital systems

became possible by converting things like sound waves into the binary system Digital Research Revised Edition examines how scientists and researchers have used digital systems to produce some of the tools and gadgets that we use in our everyday lives It also looks at the effects technology has had on quality of life and how the applications of digital systems have impacted our culture and society by providing new ways of doing things *Blockbusters* Anita Elberse, 2013-10-15 Why the future of popular culture will revolve around ever bigger bets on entertainment products by one of Harvard Business School's most popular professors What's behind the phenomenal success of entertainment businesses such as Warner Bros Marvel Entertainment and the NFL along with such stars as Jay Z Lady Gaga and LeBron James Which strategies give leaders in film television music publishing and sports an edge over their rivals Anita Elberse Harvard Business School's expert on the entertainment industry has done pioneering research on the worlds of media and sports for more than a decade Now in this groundbreaking book she explains a powerful truth about the fiercely competitive world of entertainment building a business around blockbuster products the movies television shows songs and books that are hugely expensive to produce and market is the surest path to long term success Along the way she reveals why entertainment executives often spend outrageous amounts of money in search of the next blockbuster why superstars are paid unimaginable sums and how digital technologies are transforming the entertainment landscape Full of inside stories emerging from Elberse's unprecedented access to some of the world's most successful entertainment brands *Blockbusters* is destined to become required reading for anyone seeking to understand how the entertainment industry really works and how to navigate today's high stakes business world at large

The Future of the Commercial Contract in Scholarship and Law Reform Maren Heidemann, Joseph Lee, 2018-11-02 This book explores commercial contract law in scholarship and legal practice suggests new research agendas and provides a forum for debate of typical issues that might benefit from further attention by scholarship and legislatures The authors from over ten different jurisdictions take an international and comparative approach Not confined to EU law it re opens the debate internationally and seeks to reclaim the wider meaning of European law as rooted in geography and cultural legal heritage There is a need to focus on commercial contracts in more detail in research and legislation The transactional approach the role of recent law reform including the new French Civil Code cross border dealings substantive contract law in public international law and ICSID arbitration as well as current contractual practices like OEM CSR contractual co operation sustainability and intra corporate arbitration contribute to a wider regulatory outlook for commercial transactions *The Most Expensive Game in Town* Mark Hyman, 2012-03-20 Building on the eye opening investigation into the damaging effects of the ultra competitive culture of youth sports in his previous book *Until It Hurts* Mark Hyman's new book looks at the business of youth sports how it has changed and how it is affecting young Americans Examining the youth sports economy from many sides the major corporations small entrepreneurs coaches parents and of course kids Hyman probes the reasons for rapid changes in what gets bought and sold in this lucrative marketplace Just participating in youth sports can be

expensive Among the costs are league fees equipment and perhaps private lessons with a professional coach With nearly 50 million kids playing organized sports each year it is easy to see how profitable this market can be Hyman takes us to tournaments sponsored by Nike Gatorade and other big businesses and he talks to parents who sacrifice their vacations and savings to get their sometimes reluctant junior stars to these far off expensive venues for a chance to shine He introduces us to videos purporting to teach six month old babies to kick a ball to professional athletes who will coach an eight year old for a hefty fee to a town that has literally staked its future on preteen sports With its extensive interviews and original reporting The Most Expensive Game in Town explains the causes and effects of the commercialization of youth sports changes that the author argues are distorting and diminishing family life He closes with strong examples of individuals and communities bucking this destructive trend

The Third History of Man John Bershof, MD, 2024-05-18 In the spirit of medieval writer Chaucer all human activity lies within the artist's scope the History of Man Series uses medicine as a jumping off point to explore precisely that all history all science all human activity since the beginning of time The jumping off style of writing takes the reader the listener into worlds unknown always returning to base only to jump off again History of Man are stories and tales of nearly everything The Third History of Man leaves bacteria in the rear view mirror and jumps to viruses and viral infections the cold the flu and COVID 19 not just another flu We'll cover epidemics pandemics and vaccines the pox infections and the Spock principle that the needs of the many outweigh the needs of the few or the one From COVID and the rise of Zoom we'll venture into the rise of Homo sapiens and the fall of Neanderthals the high sea adventures of Darwin aboard and the high sea adventures of dementia Our travels will take us along the Silk Road and Spice Trade another visit with the Age of Discovery when masted ships and European explorers went looking for that elusive sea route to the Far East and looking for gold annihilating huge swaths of indigenous Americans at every port of disembarkation not by the pointy end of a sword but by tiny infectious microbes We'll examine colonialism at its finest the sordid European history of imperialism and the land grab into Africa and the New World Americas
