Financial Accounting Cases Camillo Lento, Jo-Anne Ryan, 2019-09-16 Canadian Financial Accounting Cases 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting which focuses on identifying the issue, understanding implications, developing alternatives and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams or for in-class discussions. The cases have been developed using IFRS Part I, ASPE Part II or ASNPO Part III as the accounting frameworks, providing students with exposure to many different types of organizational structures and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments.

It also considers the effects of the 2005 Gambling Act and each chapter features a new interactive self-study question and feedback section. Sales Promotion is a core text of the ISP diploma and the author has utilized graduate feedback to make the fourth edition relevant to students whilst preserving its status as a potent tool for sales and marketing professionals. Whether your company is a small start-up or an international business, Sales Promotion can help you to get ahead and stay ahead of your competitors.
