Homeschooling has become ever more creative and varied as families create custom-tailored curricula, assignments, goals, and strategies that are best for each unique child. This presents a multitude of challenges and opportunities for information institutions, including public academic school and special libraries. The need for librarians to help homeschool families become information and media literate is more important than ever. This collection of essays provides a range of approaches and strategies suggested by skilled professionals as well as veteran homeschool parents on how to best serve the diverse needs and learning experiences of homeschooled youth. It includes information on needs assessments for special needs students, gifted students, and African American students; advice on how to provide support for the families of homeschoolers; case studies and information on new technologies that could benefit libraries and the homeschooler populations that they serve. **Make School Meaningful--And Fun!** Roger C.
