George Lucas George Lucas, 1999 A director producer and writer George Lucas is the power behind The Force The son of a conservative small town businessman he grew up to become arguably the most identifiable and popular filmmaker in the history of the medium Yet unlike his more publicly engaged contemporaries Lucas rarely grants reporters an audience This first book of Lucas s interviews affords fans and students of film and science fiction a rare opportunity Editor Sally Kline collects conversations from the reticent director spanning Lucas s entire career from the making of his first film 1971 s THX 1138 through American Graffiti the triumph of the Star Wars trilogy and even a 1999 interview given while awaiting the release of Star Wars Episode One The Phantom Menace In interviews from venues such as Rolling Stone Playboy and American Film Lucas reveals his distrust of the Hollywood establishment his love for making movies and his unambiguous values and how those values translate into the epic clash between good and evil created when he explores characters like Darth Vader and Luke Skywalker Lucas revolutionized the movie industry and created the most successful film series of all time Along with films of his close friend Steven Spielberg Lucas s releases invented the notion of blockbuster movies Before the end of the millennium he could count the loyal fans of the Star Wars trilogy in the millions Sally Kline is film critic for The Journal newspapers She has worked as a film commentator on a number of Washington D C radio stations and as a guest lecturer at George Washington University A freelance writer and researcher she has contributed to two books including a biography of Robert F Kennedy

Sports Analytics Leonard C Maclean, William T Ziemba, 2021-12-22 This book is a collection of applications of analytic techniques to a number of popular sports including baseball basketball hockey Jai Alai NFL football and horseracing We focus on both the statistics of the sporting events and betting strategies on the events The subject is fascinating as there are many twists and subtle complicated decisions Sports analytics applies mathematical and statistical methods to important questions in the structure and performance of sporting activities using the same basic methods and approaches as data analysts in other disciplines Sports games and events are a fruitful area for study and to evaluate betting strategies as there is extensive data and mean reversion With prices changing continuously risk arbitrage bets can be made Moreover little errors like a penalty to a player or an error in a call by a referee can change the score of a game and corresponding betting prices The collection and analysis of in game data can inform players coaches and staff on effective decision making during sporting events Novel features of the book include an analysis of who were the greatest baseball batters analyses of the players most important to team success and they are not necessarily the best players in basketball NFL football and hockey a tutorial on risk arbitrage and its applications to NFL football and NBA basketball a discussion of many ad hoc decision rules by coaches and players and what was really optimal in the racing section we discuss breeding the analysis of various bets like the Rainbow and ordinary Pick 6 a discussion and betting on the most important races and a visit to the Breeders Cup with Ed Thorp to demonstrate the place and show system in action

Media Journal

Joseph D. Harris, Jay Rosen, Gary Calpas, 1999 In this book we ask students to do three things 1 To keep a media journal in which they reflect on the uses they make of the voices and images of popular culture 2 to read and respond to the work of other media critics to test their own views and experiences against those of the writers included in these pages and 3 to try their hands at writing media criticism themselves All three kinds of work ask students to find and write about texts from the media culture around them to think critically about what they see and hear on their television sets and radios in magazines and newspapers on city streets and shopping malls at the movies and at concerts and clubs To put it another way we believe that a book such as this can provide only some of the materials for a course on writing about popular culture that the remaining materials must always come from the media themselves and the experiences students have with them Our aim is not to inculcate students with a certain set of critical methods or terms or to introduce them to the academic study of popular culture but to offer them opportunities to rethink and write about their own experiences with the media to come to their own understandings of our common culture Unequivocal Justice Christopher Freiman, 2017-06-26 This book challenges the prevailing view within political philosophy that broadly free market regimes are inconsistent with the basic principles of liberal egalitarian justice Liberal egalitarians regularly assume an ideal public interest model of political behavior and a nonideal private interest model of behavior in the market and civil society Freiman argues that this asymmetrical application of behavioral assumptions biases the analysis and undercuts ideal theoretical treatments of every major liberal egalitarian principle including political liberty economic sufficiency fair opportunity and social equality Billboard , 1985-04-27 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Eastern Illinois Panthers Football** Dan Verdun, 2014-08-30 Eastern Illinois Panthers Football chronicles the legend and lore of this storied program from the early days under coach and university auditor of accounting Otis Caldwell to today's perennial Ohio Valley Conference powerhouse Sports historian Dan Verdun sets down amazing details about EIU's 15 FCS playoff appearances 7 OVC championships 3 NFL head coaches 2 Walter Payton Award winners and the 1978 NCAA Division II national championship Panther fans will recognize the names of Mike Shanahan Darrell Mudra Jeff Gossett Sean Payton Bob Spoo and Tony Romo and many others Dan Verdun tells these men's stories from extensive research and personal interviews Find out fascinating details about key players and coaches how they arrived at EIU what they accomplished in their time wearing the blue and gray as well as the paths their lives took once they played their last game and graduation day arrived The greatest moments in EIU Panther football glory are recounted with fresh new insight Read about the legendary days of quarterback Bill Glenn who found success in the NFL of the 1940s Relive the dominance and get the inside stories of the greatest teams in EIU football history They're all here the 1978 NCAA Division II national champions the 1980 runner ups the quarterfinalist 1982 1986 1989 and
