Mortgage rate data is based on the 30-year fixed rate mortgage average in the United States and is not seasonally adjusted. House price data is from the Not Seasonally Adjusted Purchase Only Index. The FHFA House Price Index is a weighted, repeat-sales index, meaning that it measures average price changes in repeat sales on the same properties. This information is obtained by reviewing repeat mortgage transactions on single-family properties whose mortgages have been purchased or securitized by Fannie Mae or Freddie Mac since January 1992.
