William Whyte,2017-10-06 The Victorians built tens of thousands of churches in the hundred years between 1800 and 1900 Wherever you might be in the English speaking world you will be close to a Victorian built or remodelled ecclesiastical building Contemporary experience of church buildings is almost entirely down to the zeal of Victorians such as John Henry Newman Henry Wilberforce and Augustus Pugin and their ideas about the role of architecture in our spiritual life and well being In *Unlocking the Church* William Whyte explores a forgotten revolution in social and architectural history and in the

history of the Church He details the architectural and theological debates of the day explaining how the Tractarians of Oxford and the Ecclesiologists of Cambridge were embroiled in the aesthetics of architecture and how the Victorians profoundly changed the ways in which buildings were understood and experienced No longer mere receptacles for worship churches became active agents in their own rights capable of conveying theological ideas and designed to shape people s emotions These church buildings are now a challenge their maintenance repair or repurposing are pressing problems for parishes in age of declining attendance and dwindling funds By understanding their past unlocking the secrets of their space there might be answers in how to deal with the legacy of the Victorians now and into the future **The Secrets Of The**

Managing the Media in the India-Burma War, 1941-1945 Philip Woods,2022-08-11 This book explores how the

media was used by the armed forces during the India Burma campaigns of WWII to project the most positive image to domestic and international audiences of a war that often seemed neglected or misunderstood. Discussing how soldiers were for the first time able to access newspapers and radio broadcasts relating stories of the campaigns they were actively fighting in. *Managing the Media in the India Burma War* reveals not only the impact that the media had in maintaining troop morale but how the military recognised that the media could be a valuable arm of warfare. Revealing how troops responded to reports of their operations. Philip Woods demonstrates the role of the media in creating the Forgotten Army syndrome which came about in the last two years of the Burma campaign. Focusing on the British Media but with examples from the United States and India including Indian war correspondents it discusses India's role in the Second World War in relation to social economic and political developments at the time. Honing in on India and Burma at a turning point in their road to independence this book offers a fresh angle on a well known military conflict unpicks the various constraints and influences on the media in wartime and links the campaign to India's crucial role in WWII.
