should these additions continue our present extensive collections will appear comparatively scanty and meagre That these valuable introductions may be rendered of general utility several splendid botanical works containing coloured figures are published periodically and during the past year nearly two hundred new plants have been figured in them some of which are exceedingly beautiful About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc* William Jerdan, William Ring Workman, Frederick Arnold, John Morley, Charles Wycliffe Goodwin, 1884 Paxton's Magazine of Botany, and Register of Flowering Plants, 1844 (Classic Reprint) Sir Joseph Paxton, 2015-08-08 Excerpt from Paxton s Magazine of Botany and Register of Flowering Plants 1844 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Paxton's Magazine of Botany, and Register of Flowering Plants, Vol. 12 (Classic Reprint) Joseph Paxton, 2018-01-17 Excerpt from Paxton s Magazine of Botany and Register of Flowering Plants Vol 12 IT might be expected that at the end of so long a period as the twelve years during which the magazine or botany has been regularly issued some steps should be taken for so materially varying its character as to produce a new series or introduce it with a fresh aspect and arrangement About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Paxton's Magazine of Botany, Vol. 13 ,2018-01-22 Excerpt from Paxton s Magazine of Botany Vol 13 And Register of Flowering Plants Devoted as this Magazine is to a particular department of a science and confined to treating of what relates directly and indirectly to that department it were no wonder if a certain sameness of character could be traced in its now numerous volumes But that this does not exist even to the extent that might have been expected or beyond a degree which it is impossible to avoid we have pleasure as well as confidence in asserting And the privilege of many years acquaintance with our About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Annals of Horticulture** ,1847 **Paxton's Magazine of Botany and Register of Flowering Plants, Vol. 3 (Classic Reprint)** Joseph Paxton,2016-09-17 Excerpt from Paxton s Magazine of Botany and Register of Flowering Plants Vol 3 One circumstance in the culture ought to be noticed as adding much to the value of this charming plant If young seedling plants be carefully stopped while in sixty or forty eight size pots so as to prevent their twining and be thus made to form a branchy or stocky growth they may be bedded out in parterre not earlier than the first

week in June and will with care form one of the most beautiful objects that any grower is capable of presenting. The rich verdure of the leaves which in favourable soil assumes somewhat of the figure of a broad arrow head contrasts with the innumerable pure buff coloured blooms that peep from among them to which the open intensely purple tinted eye of the grower affords the finest relief imaginable. There is nothing gorgeous in this display the whole is softly delicate and chaste we know of nothing that can compare with it. Seed forms well on these external plants if the autumn be warm and sunny and every capsule as it acquires the pale brown tint of maturity either on the exposed plants or those under glass ought to be carefully preserved either to be sown or distributed among friends as we know that many persons lose all their stock in the winter and are thankful to be re supplied. Paxton's Magazine of Botany, and Register of Flowering Plants, Vol. 7 (Classic Reprint) Joseph Paxton, 2016-08-03. Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants Vol 7. It is the notorious defect of plants of this description that either they are too tall and diffuse in their growth or their flowers too diminutive or inelegant to entitle them to a place in ordinary collections. Hence it is only in the stoves of the wealthy and of those persons who are from peculiar fancy attached to such singular objects that more than two or three universally loved species of these tropical reed like plants are to be found.
