White Man's Game Stephanie Hanes, 2025-06-25 A probing examination of Western conservation efforts in Africa where our feel good stories belie a troubling reality The stunningly beautiful Gorongosa National Park once the crown jewel of Mozambique was nearly destroyed by decades of civil war It looked like a perfect place for Western philanthropy revive the park and tourists would return a win win outcome for the environment and the impoverished villagers living in the area So why did some researchers find the local communities actually getting hungrier sicker and poorer as the project went on And why did efforts to bring back wildlife become far more difficult than expected In pursuit of answers Stephanie Hanes takes readers on a vivid safari across southern Africa from the shark filled waters off Cape Agulhas to a reserve trying to save endangered wild dogs She traces the tangled history of Western missionaries explorers and do gooders in Africa from Stanley and Livingstone to Teddy Roosevelt from Bono and the Live Aid festivals to Greg Carr the American benefactor of Gorongosa And she examines the larger problems that arise when Westerners try to fix complex messy situations in the developing world acting with best intentions yet potentially overlooking the wishes of the people who live there Beneath the uplifting stories we tell ourselves about helping Africans she shows often lies a dramatic misunderstanding of what the locals actually need and want A gripping narrative of environmentalists and insurgents poachers and tycoons elephants and angry spirits **White Man's Game** profoundly challenges the way we think about philanthropy and conservation
