Rebuilding Afghanistan in Times of Crisis Adenrele Awotona, 2019-06-11 *Rebuilding Afghanistan in Times of Crisis* provides academics and researchers interested in planning urbanism and conflict studies with a multidisciplinary international assessment of the reconstruction and foreign aid efforts in Afghanistan. The book draws together expert contributions from countries across three continents: Asia, Europe, and North America, which have provided external aid to Afghanistan. Using international, regional, and local approaches, it highlights the importance of rebuilding sustainable communities in the midst of ongoing uncertainties. It explores the efficacy of external aid, challenges faced, the response of multilateral international agencies, the role of women in the reconstruction process, and community-based natural disaster risk management strategies. Finally, it looks at the lessons learned in the conflict reconstruction process to better prepare the country for future potential human, economic, infrastructural, and institutional vulnerabilities. *Alternative Development Finance and Parallel Development Strategies in the Asia-Pacific* Jin Sheng, 2021-06-25 This insightful book examines the impact of two competing visions of Asian Pacific economic growth paths and development governance. What actions, strategies, practices, and policies can be developed to sustain environmental sustainability in emerging markets? This book brings together fresh insights, ideas, and new research directions. This book consists of eleven chapters which examine environmental sustainability from consumer, organisation, and policy perspectives. These chapters are contributed by emerging and eminent authors from different regions of the world, including Asia, Australia, Europe, North America, and South America. This book provides an insightful and valuable compendium for sustainability researchers, businesses, educators, and policymakers and readers concerned about socio-environmental issues and sustainable development.
