Unlocking the potential of learning for the future Annabelle Villamarin, 2023-03-14 It is my pleasure to introduce this book on Progressive Learning in Education The past 23 years of experience across countries in the Asia Pacific Region has allowed me to curate the best strategies and practices to promote progressive learning in education *Creating Thinking Classrooms* Garfield Gini-Newman, Roland Case, 2018-03-22 Reinvigorating today's schools with Critical Creative and Collaborative thinking Critical creative and collaborative thinking should be at the centre of all 21st century teaching and learning *Creating Thinking Classrooms* is loaded with examples stories and strategies for reinvigorating schools with this quality thinking Written for leaders who support teachers this guide treats educational change as a process of renovation rather than process of revolution and emphasizes building upon refining and sustaining the many good things happening in today's schools Practical and user friendly it emphasizes five key principles for learning and teaching Engaging students

Sustaining inquiry Nurturing self regulated learners Creating assessment rich learning Enhancing learning through digital technology As a balanced and reasoned response to the challenges and opportunities facing schools this book separates the rhetoric of school reform from reality by analyzing what s actually happening and offering a plan educators can use Recapture the fundamentals of classroom learning with a practical and powerful roadmap charting the way forward As a principal and community superintendent I observed firsthand how transformational the work of Garfield Gini Newman and Roland Case is in the school community and on a systemic level in the school community and on a systemic level Creating Thinking Classrooms takes theory and research and places it directly into the hands of practitioners by offering thoughtful and immediately useful strategies Not only does this work transform engagement and achievement but it also transforms thinking for both teachers and their students Teaching and learning go from passive acquisition of information to active purposeful and deliberate interaction with the curriculum It is a must read Ursula A Hermann Ph D retired principal and community superintendent Montgomery County Public Schools What impresses me most about Creating Thinking Classrooms is the notion of framing the retooling of schools as renovation or reinvigoration rather than as revolution Too many seem to ignore that there are many good things worth preserving in our schools and others that need to be reframed or recast to give them greater currency This book builds on what has worked and makes it better The message being purposeful and patiently focused on long term success is a powerful one that needs to be heard above the din David Chojnacki Executive Director Near East South Asia Council of Overseas Schools

History Class Revisited Jody Passanisi,2016-04-28 Learn new approaches to teaching history in middle school so students are more engaged in the big ideas and eager to examine the world around them Co published by Routledge and MiddleWeb this practical guide will help you consider the unique needs of middle schoolers who are in the midst of many social and emotional changes and need to see why the study of history matters to their own lives Author Jody Passanisi shares helpful strategies and activities to make your social studies class a place where students can relate to the material connect past history to present events collaborate with others think critically about important issues and take ownership of their learning Topics include Reading and analyzing primary and secondary sources for deeper comprehension of historical issues Developing a written argument and defending it with supporting details and cited sources Examining the social context of a historical event and tracing the historical underpinnings of present day issues Using field trips games and Project Based Learning to make learning history a fun and interactive experience Assessing your students progress using self reflection projects essays and presentations The appendices offer resources for each of the topics covered in the book as well as reproducible Blackline Masters of the charts and diagrams which can be photocopied or downloaded from our website <http://www.routledge.com/products/9781138639713> for classroom use
