Book Plural Temporality Transindividuality Historical Materialism:

Plural Temporality Vittorio Morfino, 2014-06-05 Plural Temporality traces out a dynamic historical relationship between the texts of Spinoza and Althusser. It interrogates Spinoza's thought through Althusser's and vice versa with the intention of opening new horizons for the question of materialism. From the fragmentary intuitions Althusser produced about Spinoza throughout his life, Morfino builds a new and comprehensive interpretation of Spinoza's philosophy. In the later sections of the book, this interpretation is put to work to help to clarify some of the more problematic aspects of the late Althusser's philosophy, thereby offering new concepts for a materialist position in philosophy and the development of Marxist theory.

The Government of Time Vittorio Morfino, Peter D. Thomas, 2018 Can the Marxist tradition still provide new resources for thinking the specificity of historical time? This volume proposes to transform our understanding of Marxism by reconnecting with the subterranean currents of plural temporalities that have traversed its development. From Rousseau and Sieyès to Marx, from Bloch to Althusser, from Gramsci to Pasolini, and Postcolonialism, the chapters in this volume seek both to valorise neglected resources from Marxism's contradictory history and also to read against the grain its orthodox and heterodox currents. Privileging not the single time of historical development but the plural temporalities that intertwine in and constitute any given historical conjuncture and arguing against merely subjectivist theories of temporal multiplicity, this volume studies the articulation of the real plural temporalities of mass political action. Comprehending their dynamics is a necessary precondition for a renewed politics of emancipation. Contributors include Luca Basso, Stefano Bracaletti, Mauro Farnesi Camellone, Fabio Frosini, Augusto Illuminati, Nicola Marcucci, Vittorio Morfino, Luca Pinzolo, Peter D. Thomas, and Massimiliano Tomba.

The History and Philosophy of Materialism Charles T. Wolfe, John Symons, 2024-11-26 Materialism, the view that facts are dependent upon or reducible to physical processes, is one of the most long-standing and controversial of all philosophical theories. Originating in antiquity, its proponents include Epicurus, Hobbes, Diderot, Darwin, and Marx, whilst its impact on modern physics and consciousness debates reverberates strongly today. It is also an important yet generally overlooked feature of Indian, Chinese, and Islamic thought. This major collection, the first of its kind, explores the fascinating philosophical history of materialism from the ancient world to the twenty-first century. Comprising thirty-one chapters by an international team of contributors, the volume is divided into six clear parts: Ancient, Non-Western, and Medieval Philosophy; Renaissance and Early Modern Philosophy; Enlightenment; Materialisms; Nineteenth-Century Philosophy; Twentieth-Century Philosophy; Contemporary Philosophy; Philosophy of Mind; Metaphysics and Critique. Within these sections, key topics are covered, including materialism in classical Greece, India, and China; and Aztec metaphysics; Renaissance materialism and anti-materialism; materialism and Islamic philosophy; materialism in the French and German Enlightenment; atheism and materialism; nineteenth-century materialist controversies and debates in physics; Marxism and materialism; physicalism and the new materialism. *The History and Philosophy of Materialism* is ideal for those studying and researching
