The volume presents over forty essays by leading and emerging international scholars and analyses regional, cultural, racial, and sexual identities in Native American literature, key historical moments from the earliest period of colonial contact to the present, worldviews in relation to issues such as health, spirituality, animals, and physical environments, traditions of cultural creation that are key to understanding the styles, allusions, and language of Native American literature, the impact of differing literary forms of Native American literature. This collection provides a map of the critical issues central to the discipline as well as uncovering new perspectives and new directions for the development of the field. It supports academic study and also assists general readers who require a comprehensive yet manageable introduction to the contexts essential to approaching Native American literature. It is essential reading for anyone interested in the past, present, and future of this literary culture. The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Asian American Fiction After 1965 Christopher T. Fan, 2024-04-23 After the 1965 Immigration and Nationality Act loosened discriminatory restrictions people from Northeast Asian countries such as South Korea Taiwan Japan and eventually China immigrated to the United States in large numbers Highly skilled Asian immigrants flocked to professional managerial occupations especially in science technology engineering and math Asian American literature is now overwhelmingly defined by this generation's children who often struggled with parental and social expectations that they would pursue lucrative careers on their way to becoming writers Christopher T Fan offers a new way to understand Asian American fiction through the lens of the class and race formations that shaped its authors both in the

United States and in Northeast Asia In readings of writers including Ted Chiang Chang rae Lee Ken Liu Ling Ma Ruth Ozeki Kathy Wang and Charles Yu he examines how Asian American fiction maps the immigrant narrative of intergenerational conflict onto the two cultures conflict between the arts and sciences Fan argues that the self consciousness found in these writers works is a legacy of Japanese and American modernization projects that emphasized technical and scientific skills in service of rapid industrialization He considers Asian American writers attraction to science fiction the figure of the engineer and notions of the postracial modernization theory and time travel and what happens when the dream of a stable professional identity encounters the realities of deprofessionalization and proletarianization Through a transnational and historical materialist approach this groundbreaking book illuminates what makes texts and authors Asian American The Routledge Introduction to American Women Writers Wendy Martin, Sharone Williams, 2016-04-28 The Routledge Introduction to American Women Writers considers the important literary historical cultural and intellectual contexts of American women authors from the seventeenth century to the present and provides readers with an analysis of current literary trends and debates in women s literature This accessible and engaging guide covers a variety of essential topics such as the transatlantic and transnational origins of American women s literary traditions the colonial period and the Puritans the early national period and the rhetoric of independence the nineteenth century and the Civil War the twentieth century including modernism the Harlem Renaissance and the Civil Rights era trends in twenty first century American women s writing feminism gender and sexuality regionalism domesticity ethnicity and multiculturalism The volume examines the ways in which women writers from diverse racial social and cultural backgrounds have shaped American literary traditions giving particular attention to the ways writers worked inside outside and around the strictures of their cultural and historical moments to create space for women s voices and experiences as a vital part of American life Addressing key contemporary and theoretical debates this comprehensive overview presents a highly readable narrative of the development of literature by American women and offers a crucial range of perspectives on American literary history *Gale Researcher Guide for: Creating a Recursive Memoir from the Novel Form: Maxine Hong Kingston* Jeslyn Medoff, Sharon Tran, Gale Researcher Guide for Creating a Recursive Memoir from the Novel Form Maxine Hong Kingston is selected from Gale s academic platform Gale Researcher These study guides provide peer reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research The Exquisite Corpse of Asian America Rachel C. Lee, 2014-12-05 Winner of the 2016 Association for Asian American Studies Award for Best Book in Cultural Studies The Exquisite Corpse of Asian America addresses this central question if race has been settled as a legal or social construction and not as biological fact why do Asian American artists authors and performers continue to scrutinize their body parts Engaging novels poetry theater and new media from both the U S and internationally such as Kazuo Ishiguro s science fiction novel *Never Let Me Go* or Ruth Ozeki s *My Year of Meats* and exhibits like that of *Body Worlds* in which

many of the bodies on display originated from Chinese prisons Rachel C Lee teases out the preoccupation with human fragments and posthuman ecologies in the context of Asian American cultural production and theory She unpacks how the designation of Asian American itself is a mental construct that is paradoxically linked to the biological body Through chapters that each use a body part as springboard for reading Asian American texts Lee inaugurates a new avenue of research on biosociality and biopolitics within Asian American criticism focused on the literary and cultural understandings of pastoral governmentality the divergent scales of embodiment and the queer cross species being of racial subjects She establishes an intellectual alliance and methodological synergy between Asian American studies and Science and Technology Studies STS biocultures medical humanities and femiqueer approaches to family formation carework affect and ethics In pursuing an Asian Americanist critique concerned with speculative and real changes to human biologies she both produces innovation within the field and demonstrates the urgency of that critique to other disciplines **Asian American Literature in**
