Online Future God Practical Approach Spirituality:

Reimagining God and Resacralisation Alexa Blonner, 2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God's nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion

Negotiating Religion and Non-religion in Childhood Rachael Shillitoe, 2023-11-17 This book explores how and if the mandate for children to worship in schools can be justified within the context of declining church attendance and increasing nonreligious identification in British society Shillitoe asks what place compulsory worship has in an increasingly diverse and plural society and what the answer means for the relationship between religion the secular and education more broadly Through in depth ethnographic fieldwork from across three schools in southwest England the book reveals how examining the significance of children's experiences expands our understanding of both collective worship in schooling and religion in social life more broadly and demonstrates that adult centric anxieties and assumptions in this area do not always reflect the experiences of children

Sacred Snaps Roman R. Williams, Catherine Holtmann, William L. Sachs, 2024-11-25 Sacred Snaps tells the story of a new approach to interfaith engagement It is an invitation to see and engage religion diversity and inclusion through the lens of the mobile phone camera These days just about everyone owns a camera equipped cell phone What if we recruited these

cameras for the common good When religion shows up in everyday life at work school the mall or the beach often it is not welcome At a time when so much of the public discourse is around equity diversity and inclusion religion seems peripheral to the conversation Many embrace the wisdom that our workplaces schools and communities are enhanced when people can bring their whole selves into every aspect of their daily lives But religion and spirituality are not gaining the same ground as other aspects of diversity such as race ethnicity gender sexuality and ability To be more fully included in the cultural conversation about human flourishing religion needs to be seen and heard in new ways The old paradigm of interreligious dialogue is no longer adequate A new paradigm focused on building relationships at the grass roots of daily life is emerging This cutting edge volume brings together Christians and Muslims in the United States and Canada to explore what their beliefs practices and values look like in everyday life
