Moral Theory An Introduction Elements Of Philosophy:

Moral Theory Mark Timmons, 2002 Moral Theory explores some of the most historically important and currently debated moral theories about the nature of the right and good After introducing students in the first chapter to some of the main aims and methods of evaluating a moral theory the remaining chapters are devoted to an examination of various moral theories including the divine command theory moral relativism natural law theory Kant's moral theory moral pluralism virtue ethics and moral particularism *Business Ethics* Bob Tricker, Gretchen Tricker, 2014-01-03 Traditionally books on business ethics focus on CSR companies relations with their stakeholders and corporate citizenship More recently green credentials and sustainability have been added to that agenda Unconventionally this book argues that business ethics are basic to running business not a separate subject They are inherent to the governance and management of every organization not an optional exercise in corporate citizenship Business ethics concern behaviour in business and the behaviour of business Decisions at every level in a company have ethical implications strategically in the board room managerially throughout the organization and operationally in all of its activities The use and sometimes the abuse of corporate power the process of corporate governance raises ethical issues Business involves risk taking whether decisions are at the strategic managerial or operational level Exposure to ethical risk needs to be part of every organization's strategy formulation policy making and enterprise risk management Designed to be read by both undergraduates and postgraduates this book is a primer on ethics in business It is also relevant to ethics courses that are now part of many legal accountancy and other professional examinations The book is not about moral philosophy nor does it prescribe appropriate standards of behaviour or recommend economic legal or political solutions Rather it enables readers to recognize ethical issues in business to respond appropriately and to embed ethics in business processes The book not only considers what business ethics are and why they are important but offers practical approaches on how to develop a successful corporate ethics culture Epistemology Laurence Bonjour, 2010 In Epistemology Laurence Bonjour introduces the serious philosophy student to the history and concepts of epistemology while simultaneously challenging them to take an active part in its ongoing debates The text reflects Bonjour's conviction that the place to start any discussion of the theories of knowledge is with the classical problems beginning with and centered around Descartes The Bloomsbury Handbook of Ethics Christian B. Miller, 2023-10-19 Updated and expanded to represent the fundamental questions at the heart of philosophical ethics today the second edition of The Bloomsbury Handbook of Ethics covers the key topics in metaethics and normative ethical theory This edition includes 12 fully revised chapters and 3 newly commissioned contributions from a range of esteemed academics who provide accessible introductions to their own areas of expertise The first part of the book covers the field of metaethics including subjects such as moral realism expressivism constructivism practical reason moral psychology experimental ethics and evolutionary ethics as well as two new chapters that respond to ethical debates concerning moral relativism and moral

Thomas Reid's Lectures on the Fine Arts P. Kivy, 2012-12-06 The past few years have seen a revival of interest in Thomas Reid's philosophy His moral theory has been studied by D D Raphael The Moral Sense and his entire philosophical position by S A Grave The Scottish Philosophy of Common Sense Prior to both A D Woozley gave us the first modern reprint of Reid's Essays on the Intellectual Powers of Man in fact the first edition of any work by Reid to appear in print since the Philosophical Works was edited in the nineteenth century by Sir William Hamilton But Reid's aesthetic philosophy has not received its due Woozley in abridging the Essays omitted the whole final essay On Taste which is the only extended work on aesthetic theory that Reid ever published Raphael being interested primarily in Reid's moral theory understand ably treated aesthetics only as it was related to morality And Grave although he did present a short and very cogent resume of Reid's aesthetic position obviously found himself drawn to other elements of Reid's philosophy There are of course some accounts of Reid's aesthetic theory to be found in the various studies of eighteenth century British aesthetics and criticism None however appears to me to do any kind of justice to the philosophical questions which Reid treats in his aesthetics and philosophy of art

Boje, 2008-09-01 The purpose of this book is to develop those ethical traditions For example Horkheimer's books *Eclipse of Reason* and *Critique of Instrumental Reason* and his early and now classic essay *Materialism and Morality* ask for a reformation of Kantian ethics The reform sought is that categorical imperative in an individualism capitalism serves to worsen the difference between business ethics and moral philosophy That is it is not enough to try to be good or ethical as individuals when it is the systemic processes that must be dealt with Therefore Horkheimer asks that the maxim that would be made universal be done at the level of people organizing with others to change the social system that is producing the unethical behaviors The book is organized into several sections The first section sets the stages beginning with a challenge to the field of social responsibility in business and public administration Jones Ten bos Parker have a new book out that is smashing Then we turn to Carr and to Zanetti who each have done critical theory work in public administration This is followed by Heather Hopfl who edited an issue on ethics of goodness and does the kind of writing that makes deep connections The next set of chapters make topic connections rhizomatics dialogics of co experience story narrative and postmodern The third set of topics focus on application technofuturist international business economics university environment accounting spirituality strategy and ending with Mills work on silence of race ethnicity in business and public administration ethics writing
