Daynes, 1988-09-18 **Moral Controversies in American Politics** Raymond Tatalovich, Byron W. Daynes, 1998 No area of public policymaking is more hotly debated than the use of governmental authority to institute certain enforceable standards of behavior in areas that have been the subject of moral controversy Such issues as abortion for example are debated not on grounds of economic calculus but rather the moral and normative concerns of citizens and typically evoke a reversal of the liberal conservative division of views on the appropriateness of government interventionism In Theodore Lowi s words the politics of such issues is more ideological more moral more directly derived from fundamental values more intense less utilitarian more polarized and less prone to compromise This volume examines eight social regulatory policy issues abortion pornography death penalty gun control affirmative action church state separation official English and gay rights Each case study examines the relevant issues and arguments policy shifts over time the roles of key political an institutional actors including lobbies and interest groups public opinion the bureaucracy the president Congress the judiciary and state and local authorities *The Rise and Fall of Moral Conflicts in the United States and Canada* Mildred A. Schwartz, Raymond Tatalovich, 2018-03-01 In *The Rise and Fall of Moral Conflicts in the United States and Canada* sociologist Mildred A. Schwartz and political scientist Raymond Tatalovich bring their disciplinary insights to the study of moral issues Beginning

with prohibition Schwartz and Tatalovich trace the phases of its evolution from emergence establishment decline and resurgence to resolution Prohibition's life history generates a series of hypotheses about how passage through each of the phases affected subsequent developments and how these were shaped by the political institutions and social character of the United States and Canada Using the history of prohibition in North America as a point of reference the authors move on to address the anticipated progression and possible resolution of six contemporary moral issues abortion capital punishment gun control marijuana pornography and same sex relations Schwartz and Tatalovich build a new theoretical approach by drawing on scholarship on agenda setting mass media social movements and social problems *The Rise and Fall of Moral Conflicts* provides new insights into how moral conflicts develop and interact with their social and political environment

Morality Politics in American Cities Elaine B. Sharp, Yvette M. Alex-Assensoh, 2005 Topless bars casino gambling needle exchange programs for drug addicts there's no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study *Morality Politics in American Cities* is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative *Morality Politics in American Cities* demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics *The Oxford Handbook of State and Local Government* Donald P.

Haider-Markel, 2014-04-03 *The Oxford Handbook of State and Local Government* is an historic undertaking It contains a wide

range of essays that define the important questions in the field evaluate where we are in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research

Morality Policies in Europe Christoph Knill, 2017-07-05 The regulation of issues like abortion euthanasia gun control same sex unions pornography prostitution drugs or gambling is commonly referred to a special class of so called morality policies The distinctive feature of these policies is that politics are shaped by conflicts over first principle When does life end When does it begin Is gambling drug consumption or prostitution inherently malignant The regulation of these value conflicts entails decisions about right or wrong and hence the validation of a particular set of basic values Yet there is still a remarkable lack of scholarly attention on morality policies in particular with regard to general implications for the study of public policy To stimulate further research in this area this book focuses on different concepts and theories of morality policy change in European countries It is based on a broad and comparative empirical perspective on different morality issues including for instance the regulation of prostitution abortion euthanasia gambling drugs as well as gun controls This book was published as a special issue of the Journal of European Public Policy

Uncompromising Positions Elizabeth Anne Oldmixon, 2005-12-02 Cultural factions are an intrinsic part of the fabric of American politics But does this mean that there is no room for compromise when groups hold radically different viewpoints on major issues Not necessarily For example in a June 2003 Time CNN poll 49% of respondents identified themselves as pro choice and 46% identified as pro life But in the same poll 81% indicated that abortion should be always legal or sometimes legal suggesting that pro life and pro choice are

not discrete positions but allow room for compromise How do legislators legislate policy conflicts that are defined in explicitly cultural terms such as abortion gay marriage and school prayer American political institutions are frequently challenged by the significant conflict between those who embrace religious traditionalism and those who embrace progressive cultural norms Uncompromising Positions God Sex and the U S House of Representatives investigates the politics of that conflict as it is manifested in the proceedings of the U S House of Representatives Oldmixon traces the development of these two distinct cultures in contemporary American politics and discusses the decision making and leadership tactics used by legislators to respond to this division of values She argues that cultural conflict produces an absolutist politics that draws on religious values not amenable to compromise politics One possible strategy to address the problem is to build bipartisan coalitions Yet interviews with House staffers and House members as well as roll calls all demonstrate that ideologically driven politicians sacrifice compromise and stability to achieve short term political gain Noting polls that show Americans tend to support compromise positions Oldmixon calls on House members to put aside short term political gain take their direction from the example of the American public and focus on finding viable solutions to public policy not zealous ideology **Gambling Politics** Patrick Alan Pierce,Donald E. Miller,2004 Examines the dramatic growth of legal gambling in the United States and the shifting and often contentious politics accompanying its spread
