Beyond the Boardroom Dr. Piali Halder, Dr. Brijlal Malik, 2025-06-19

The book *Beyond the Boardroom: Practical Management Cases in Indian Context* is a timely and valuable contribution to the field of management education and practice in India. As management education is continuously evolving in a competitive environment, there is a growing need for resources that go beyond theoretical frameworks and provide real-world insights into decision-making, problem-solving, and leadership. This edited volume responds to that need by offering a comprehensive collection of 100 carefully selected and well-structured case studies drawn from the Indian business environment. By blending theory with practice, the book bridges the gap between classroom learning and the complex realities faced by managers and organizations in diverse industries. At its core, the book recognizes the importance of contextualising management knowledge. Much of management literature historically has been dominated by Western perspectives and examples. While global theories provide a strong foundation, management students and practitioners in India often struggle to connect them with the unique socio-cultural, economic, political, and legal environment of Indian businesses. It examines how Indian companies, both large corporations and emerging start-ups, navigate challenges and opportunities while responding to the local environment.
