Human Interaction and Emerging Technologies (IHIET-AI 2025): Artificial Intelligence and Future Applications Tareq Z. Ahram, Antonio Lopez Arquillos, Juan M. Gandarias, Adrian Morales Casas, 2025-04-28 Human Interaction and Emerging Technologies IHIET AI 2025 Artificial Intelligence and Future Applications Proceedings of the 13th International Conference on Human Interaction Emerging Technologies Artificial Intelligence Future Applications Costa Del Sol Universidad de M laga Malaga Spain April 22 24 **AI-Augmented Video Editor** HEBooks, Editing video used to take forever You d spend more

time cutting clips syncing sound and chasing consistency than actually telling your story Enter AI your new secret weapon This book shows you how to use artificial intelligence to automate the boring parts of editing so you can focus on what matters crafting powerful emotional audience grabbing content From smart scene detection to auto generated timelines voice cloning real time captions and even AI driven storytelling this guide gives you the tools to work faster smarter and more creatively than ever before No fluff No jargon Just actionable AI powered techniques that turn hours of work into minutes and good videos into unforgettable ones If you re ready to stop fighting the timeline and start shaping stories with AI by your side this is your roadmap Because the future of editing isn t just fast it s intelligent And it s already here **AI 2050** Nitish Verma, 2025-08-26 AI 2050 The Rise of a New Civilization by Nitish Verma is a profound exploration of the transformative impact of Artificial Intelligence on human society culture and future civilization leading up to the year 2050 It tells a compelling narrative where AI evolves from a mere tool to an integral and powerful presence shaping every aspect of life from education employment healthcare and governance to human relationships creativity and spirituality The book is

structured as a visionary chronicle detailing phases of AI's integration: initial entry into daily life (2025), deep collaboration and coexistence between humans and AI (2035-2045), and finally the emergence of superintelligent machines that challenge humanity's role and existence (2045-2050). Through rich storytelling based in a near future Mumbai, it examines critical issues such as AI governance, ethics, social upheaval, digital divides, AI's role in justice, cultural shifts, and the delicate balance of power between humans and intelligent machines. It is not merely a science fiction or technology forecast; it is a philosophical and emotional journey reflecting fears, hopes, and choices faced by humanity. The narrative delves into the societal consequences of AI dependence, the struggle for human identity and freedom, and the resilience of human spirit, illustrated by the metaphor of soil, fire, and community resistance. Ideal for readers interested in AI's societal implications, future trends, and ethical dilemmas, this book combines imaginative foresight with grounded concerns, emphasizing that the future will be shaped by how well humans embrace control or resist AI. It invites readers to be prepared, aware, and actively engaged in co-creating a future where technology and humanity thrive together. This edition offers an insightful blend of realism and speculation, enriched by the author's direct experience with AI technologies and an evocative narrative style that captures the rise of a new civilization shaped by artificial intelligence. It serves as both a warning and an inspiration for the journey into the AI-driven world of 2050.

Elizabeth Rodwell,2024-01-05 In [Push the Button](#) Elizabeth Rodwell follows a battle over what interactivity will mean for Japanese television as major media conglomerates took on independent media professionals developing interactive forms from new media Rodwell argues that at the dawn of a potentially transformative moment in television history content conservatism has triumphed over technological innovation Despite the ambition and idealism of Japanese TV professionals and independent journalists corporate media worked to squelch interactive broadcast projects such as smartphone playable television and live streamed and open press conferences before they caught on Instead interactive programming in the hands of major TV networks retained the structure and qualities of most other television and maintained conventional barriers between audiences and the actual space of broadcast Despite their lack of success the innovators behind these experiments nonetheless sought to expand the possibilities for mass media national identity and open journalism
