Moving Out Of Poverty Rising From The Ashes Of Conflict:

Moving Out of Poverty Deepa Narayan, Patti Petesch, 2009-12-09 There is no peace with hunger Only promises and promises and no fulfillment If there is no job there is no peace If there is nothing to cook in the pot there is no peace Oscar a 57 year old man El Gorri n Colombia They want to construct their houses near the road and they cannot do that if they do not have peace with their enemies So peace and the road have developed a symbiotic relation One cannot live without the other A community leader from a conflict affected community on the island of Mindanao Philippines Most conflict studies focus on the national level but this volume focuses on the community level It explores how communities experience and recover from violent conflict and the surprising opportunities that can emerge for poor people to move out of poverty in these harsh contexts *Rising from the Ashes of Conflict* reveals how poor people s mobility is shaped by local democracy people s associations aid strategies and the local economic environment in over 100 communities in seven conflict affected countries including Afghanistan The findings suggest the need to rethink postconflict development assistance This is the fourth volume in a series derived from the *Moving Out of Poverty* study which explores mobility from the perspectives of poor people in more than 500 communities across 15 countries *Moving Out of Poverty* ,2010 **Moving Out of Poverty** Deepa Narayan, Patti Petesch, 2009-01-01 This volume brings together findings and lessons about why and how people move in and out of poverty in conflict affected contexts It features cross country findings on conflict and mobility as well as in depth case studies of six countries affected by significant violent conflict during the ten year period covered by the research **When War Ends** David J. Francis, 2016-02-17 This volume critically examines what happens when war formally ends the difficult and complex challenges and opportunities for winning the peace and reconciling divided communities By reviewing a case study of the West African state of Sierra Leone potential lessons for other parts of the world can be gained Sierra Leone has emerged as a successful model of liberal peacebuilding that is now popularly advertised and promoted by the international community as a powerful example of a country that they finally got right Concerns about how successful a model Sierra Leone actually is are outlined in this project As such this volume *Gender Justice and Development: Local and Global* Christine Koggel, Cynthia Bisman, 2017-10-02 It is now generally accepted by development theorists and policy makers that the popular policies of reducing or eliminating social welfare programs over the past several decades have increased inequalities and injustices throughout the world The authors in this collection focus on the gendered aspects of these inequalities and injustices They do so by exploring the ethics values and principles central to understanding and alleviating real world problems resulting from a lack of gender justice locally and globally Some of the authors offer new theoretical and conceptual frameworks in order to analyze connections between gender norms and inequalities to devise strategies to empower women and strengthen communities to challenge mainstream understandings of justice and responsibility to promote caring and just relationships among people within and across borders or to shape more adequate accounts of

development and global ethics Other authors apply new theories and concepts in order to explore gender justice in the context of issues such as climate change land ownership rights in Cameroon or empowerment strategies in places such as Afghanistan Bangladesh Ghana Columbia and Indonesia This book was originally published as a special issue of Ethics and Social Welfare On Norms and Agency Ana María Muñoz Boudet,Patti Petesch,Carolyn Turk,2013-04-25 Based on focus

groups and interviews with nearly 4 000 women men girls and boys from 20 countries this book explores areas that are less often studied in gender and development gender norms and agency It reveals how little gender norms have changed how similar they are across countries and how they are being challenged and contested *When Violence Works* Patrick

Barron,2019-04-15 Why are some places successful in moving from war to consolidated peace while others continue to be troubled by violence And why does postconflict violence take different forms and have different intensities By developing a new theory of postconflict violence Patrick Barron s *When Violence Works* makes a significant contribution to our understanding Barron picks out three postconflict regions in Indonesia in which to analyze what happens once the official fighting ends North Maluku has seen peace consolidated Maluku still witnesses large episodes of violence and Aceh experiences continuing occurrences of violence but on a smaller scale than in Maluku He argues that violence after war has ended revenge killings sexual violence gang battles and violent crime in addition to overtly political conflict is not the result of failed elite bargains or weak states but occurs because the actors involved see it as beneficial and lowcost His findings pertain directly to Indonesia but the theory will have relevance far beyond as those studying countries such as Colombia the Philippines Iraq Afghanistan and Syria seek a framework in which to assess what happens after war ends Barron s theory also provides practical guidance for policymakers and development practitioners Ultimately *When Violence Works* pushes forward our understanding of why postconflict violence occurs and takes the forms it does **Moving Out of Poverty**

Volume 2 Deepa Narayan-Parker,Deepa Narayan,Lant Pritchett,Soumya Kapoor,2009-04-17 Based on discussions with over 60 000 people across Africa Asia and Latin America this book provides a bottom up view on the processes and institutions that play key roles in poverty escapes asking how these help or hinder people in their quest to move out of poverty It argues for poverty reducing strategies informed by local realities *Moving Out of Poverty* Deepa Narayan,Lant Pritchett,Soumya Kapoor,2009-03-25 No matter if I fall I get up again If I fall 5 000 times I will stand up another 5 000 times William a 37 year old from El Gorri n Colombia Why and how do some people move out of poverty and stay out while others remain trapped Most books on growth and poverty reduction are dominated by the perspectives of policy makers and academic experts In contrast *Moving Out of Poverty Success from the Bottom Up* presents the experiences of poor people who have made it out of poverty The book s findings draw from the *Moving Out of Poverty* research conducted in communities in 15 countries in Africa East Asia Latin America and South Asia The authors synthesize the results of qualitative and quantitative research based on discussions with over 60 000 people in rural areas They offer bottom up perspectives on the processes and local

institutions that play key roles in escapes from poverty The study finds that there are no differences in the initiatives taken by the poor the rich and the upwardly mobile What then explains the difference in outcomes The authors demonstrate how in the face of deep social inequalities that block access to economic opportunities and local democracies individual initiative and empowerment by themselves are often not enough to escape poverty This book will be of interest to all concerned with equity in an increasingly unequal world Daily Graphic Ransford Tetteh,2010-01-15 **More and Better Jobs in South Asia** The World Bank,2011-12-20 South Asia has created nearly 800 000 jobs per month during the last decade Robust economic growth in large parts of the region has created better jobs those that pay higher wages for wage workers and reduce poverty for the self employed the largest segment of the region s employed Going forward South Asia faces the enormous challenge of absorbing 1 to 1.2 million entrants to the labor force every month for the next two decades at rising levels of productivity This calls for an agenda that cuts across sectors and includes improving the reliability of electricity supply for firms in both urban and rural settings dealing decisively with issues of governance and corruption making access to land easier for urban informal firms and strengthening transport links between rural firms and their markets It requires improving nutrition in early childhood to avoid cognitive impairment intensifying the focus on quality of learning in education systems equipping workers with the skills that employers demand and reorienting labor market regulations and programs to protect workers rather than jobs The continuance of high economic growth to help improve job quality is not assured But the region s demography can provide a favorable tailwind The growth of workers exceeds that of dependents in much of the region The resources saved from having fewer dependents can be shifted to high priority investments in physical and human capital accumulation necessary to create productive jobs in countries with an enabling policy framework But the demographic window of opportunity is open for only the next three decades a fact which lends urgency to the reform agenda This book will be of interest to policy makers their advisers researchers and students of economics who seek solutions not only to the challenge of creating more and better jobs in South Asia but globally as well It is the first title in South Asia Development Matters a new series that will serve as a vehicle for in depth synthesis of economic and policy analysis on key development topics for South Asia **Conflict, Security, and Development** World Bank,2011 The WDR 2011 draws together lessons from national reformers escaping from repetitive cycles of violence Publications Catalog World Bank,2009-07 Journal of Peace Research ,2010-11 *Moving Out of Poverty* Deepa Narayan,Patti Petesch,2007-07-30 This book brings together the latest thinking about poverty dynamics from diverse analytic traditions While covering a vast body of conceptual and empirical knowledge about economic and social mobility it takes the reader on compelling journeys of multigenerational accounts of three villages in Kanartaka India twelve years in the life of a street child in Burkina Faso and much more Leading development practitioners and scholars from the fields of anthropology economics political science and sociology critically examine the literature from their disciplines and contribute new frameworks and evidence from their own

works The Moving Out of Poverty series launched in 2007 is under the editorial direction of Deepa Narayan Senior Advisor of the World Bank and former director of the pathbreaking Voices of the Poor series It features the results of new comparative research across more than 500 communities in 15 countries to understand how and why people move out of poverty and presents other work which builds on interdisciplinary and contextually grounded understandings of growth and poverty reduction Moving Out of Poverty , **Indian National Bibliography** B.
