Moving Beyond Church Growth Prisms:

Moving Beyond Church Growth Mark A. Olson, 2001-12-01 Character development for communities of faith Mark Olson believes that trying to meet unrealistic expectations for church growth along with expectations that pastors be all things to all people has resulted in low morale even burnout among clergy and dissension within congregations Olson's book argues that church growth models exemplify and exacerbate the tendencies of the modern age and Constantinian Christianity holding the church hostage to technique and marketing These assumptions set up pastors and churches for disappointment and failure But they also in his opinion miss an opportunity to envision a faithful alternative to the consumeristic church Olson's valuable book calls church leaders to faithful bold and courageous rethinking of congregational life and witness in substance purpose and style His own 20 years of ministry in rural suburban and urban congregations inform an alternative rooted deeply in the past and anchored in strong leadership and worship but also profoundly compassionate and engaged in the surrounding community In this model pastors primary responsibilities are not to fix everything and everybody but to enable people to be present to each other and to provide hope

Fluker, 2009 We live in a leadership crisis In an age when incompatible worlds collide and when scandals rock formerly stable institutions says Walter Fluker what counts most is ethical leadership and the qualities of personal integrity spiritual discipline intellectual openness and moral anchoring Fluker finds these characteristics exemplified in the work and thought of black church giants Martin Luther King Jr and Howard Thurman This volume for leaders and emergent leaders in religious and other settings sets forth the context and principles for ethical leadership particularly for ministries and other professions whose mission directly advances the common good Fluker's volume grounds leadership in story the appropriation of one's roots as a basis for personal and social transformation He then explores the key values of character civility and community for ethical action on the personal public and spiritual realms From these considerations he develops a model of the specific virtues that embody each realm of ethical leadership before applying them to the practical aspects of leadership and decisionmaking
