key themes of identity language and writing metropolitan living and community and storytelling and illusion By tracing how Auster s representations of New York and city life have matured from a position of urban nihilism to qualified optimism the book shows how the variety of forms he works in influences the treatment of his central concerns The chapters are organised around gradually extending spaces to reflect the way in which Auster s work broadens its focus beginning with the poet s room and finishing with the global metropolis of New York his home city and often his muse The book uses Auster s published and unpublished literary essays to explain the shifts from the dense and introspective poems of the 70s through the metropolitan fictions of the 80s and early 90s to the relatively optimistic and critically acclaimed films and his return to fiction in recent years *Shuttle, Spindle & Dyepot* ,1978 *Food Microbiology and Sanitation* Mr. Rohit
