the exam but just require guidance in the correct logical approach that the Royal College is looking for The book has therefore quite unlike other MRCP PACES books avoided any attempts at being a definitive text Rather it has focused on the key aspects that the authors believe are required to pass the examination in particular focus on presentation style Whilst medicine is indeed an ocean the most commonly examined topics have been selected to reflect the likely scenarios a candidate will face as the old adage goes common things occur commonly In producing this book extensive feedback was sought from candidates revising for the examination to reflect their needs The layout therefore involves a methodical approach with a short introduction similar to that presented in the exam followed by clinical findings expected to be found An example of presentation style has then been produced to allow the candidate to rehearse and practice this essential component of the exam Doctors preparing for the exam have limited time due to busy work schedules Therefore summary books are key for candidates sitting the MRCP PACES examination Most PACES candidates fail the exam based on history and communication stations Therefore attention has been paid to PACES for the MRCP Tim Hall,2013-09-17 The 3rd edition of PACES for the MRCP has been fully revised and updated throughout to retain its pole position as the textbook to accompany core medical training CMT and prepare candidates for success in the Practical Assessment of Clinical Examination Skills and a future specialty career Features Fully revised for the new Station 5 and completely updated throughout Promotes understanding and deeper learning of modern medicine applicable to PACES and the specialist registrar Emphasis on clinical assessment history taking examination and communication skills equipping candidates with appropriate differential diagnoses from which to develop the right diagnosis Encourages candidates to question why a diagnosis has arisen and consider its consequences For example Heart failure is not a diagnosis until a candidate has considered the differential diagnoses of breathlessness and decided why heart failure is most likely and then considered its cause not always ischaemic heart disease its presentation acute chronic left or right ventricular or both and most importantly the effects of it and its treatments on a patient's life This 3rd edition of PACES for the MRCP continues to provide fully revised up to date evidence based coverage of investigations and treatments Whilst the emphasis of PACES is on clinical skills candidates who understand when for example a patient with rheumatoid arthritis might benefit from a biologic agent and how this will influence inflammatory disease is better equipped for success A one volume text giving candidates complete preparation for the PACES exam within one portable volume 250 cases organised into the 5 stations of the PACES exam respiratory and abdominal system history taking cardiovascular and nervous system communication and ethics and skin locomotion eyes and endocrine systems Engaging question and answer approach at the end of each case excellent preparation for the exam Boxed tips highlight vital information helps identify what is most important to remember Fully revised for the new Station 5 and completely updated throughout An Aid to the MRCP PACES, Volume 3 Robert E. J. Ryder,M. Afzal Mir,Anne Freeman,Edward Fogden,2013-08-01 An Aid to the MRCP PACES Volume 3 Station 5 is a brand new
