Multicultural Couple Therapy:

Multicultural Couple Therapy Mudita Rastogi, Volker Thomas, 2008-12-01 Most traditional couple therapy models are based on the Eurocentric middle class value system and are not effective for today's psychotherapists working in multicultural settings. *Multicultural Couple Therapy* is the first hands-on guide for integrating couple therapy with culture, race, ethnic identity, socioeconomic status, religious beliefs, sexual orientation, and immigration experiences. The editors and a culturally diverse group of contributors follow a common outline of topics across chapters related to theory, research, practice, and training. They report on the application of major evidence-based models of couple therapy and demonstrate the integral role played by contextually based values involved in relationships, conflict, and resolution. **Key Features:** Presents a multiperspective approach that focuses on specific cultural issues in couple therapy; Creates a cultural context for couples to help readers better understand key issues that affect relationships; Features a series of compelling Case Examples from the authors' personal therapeutic experience in treatment with couples from diverse backgrounds; Includes Additional Resource sections including suggested readings, films, and Web sites as well as experiential exercises and topics for reflection; Intended Audience: This groundbreaking book provides an in-depth resource for clinicians, supervisors, educators, and students enrolled in courses in couple therapy, marriage and family therapy, and multicultural counseling who are interested in how diverse clients define conflicts and what they consider to be functional solutions.

Multicultural Couple Therapy Mudita Rastogi, Volker Thomas, 2009 This text integrates a multicultural perspective into counselling couples practice. It covers theory and practice and also contains exercises. *Multicultural Couple Therapy* Mudita Rastogi, Volker Thomas, 2008-12 This is a practical guide to multicultural counselling from a variety of perspectives. *Clinical Issues with Interracial Couples* Volker Thomas, Joseph L. Wetchler, Terri Karis, 2014-02-25 Go beyond cookie-cutter therapy and interventions to provide culturally relevant therapy that works for your clients in interracial relationships. With this book you'll explore an array of relational issues faced by various configurations of interracial couples. Then you'll learn specific intervention strategies for treating these couples in therapy. The first section presents research and theoretical chapters on issues faced by interracial couples who are heterosexual; the second focuses on issues facing racially mixed gay and lesbian couples; and the third provides you with specific interventions to use with couples in interracial relationships. *Clinical Issues with Interracial Couples: Theories and Research* is an important addition to the collection of any therapist who counts an interracial couple among his or her clients. From the editors: Although interracial couples face challenges related to differences in their racial backgrounds, couple and family theories have had little to say about how to work with these differences. Not all couples are white, married, and heterosexual, and there is a growing understanding that clinical practices based on these assumptions may not be adequate when working with interracial couples. Recognizing the diversity of our clients, the intent of this book is to contribute to more respectful and inclusive clinical practices that can address the treatment issues we face in the first

decade of the twenty first century The first section of this book examines challenges faced by heterosexual interracial couples focusing on how black white couples experience and respond to racism and how they negotiate the racial and ethnic differences they face in their relationships the significance of race or lack of it in white women s relationships with black men with suggestions on how to create a therapeutic space for discussing race without over determining its significance marriages where one partner is of Latino a descent and the other of non Latino a white descent a pilot study of a rarely investigated population approaches interventions and strategies to use when treating multicultural Muslim couples Hawaii s unusual history of interracial ties and relationships the common challenges that face interracial couples there and therapeutic interventions that can benefit them The second section of Clinical Issues with Interracial Couples looks at the issues faced by same sex interracial couples Here is a sample of what you ll find clinical considerations for working with interracial intercultural lesbian couples pitfalls to avoid in therapy as well as suggestions for a conceptual approach for gay Latino men in cross cultural relationships The book s final section presents interventions for use with interracial couples Here you ll find assessment techniques and interventions geared toward black white couples information on doing effective therapy with Latino a white couples a case study of the therapeutic process as applied to an Asian American woman married to a white man seven therapists perspectives on working with interracial couples focusing on the historical context of intermarriage specific concerns and issues that interracial couples experience in their relationships and the experiences of therapists working with this diverse and challenging client population

Clinical Casebook of Couple Therapy Alan S. Gurman, 2012-11-26 An ideal supplemental text this instructive casebook presents in depth illustrations of treatment based on the most important couple therapy models An array of leading clinicians offer a window onto how they work with clients grappling with mild and more serious clinical concerns including conflicts surrounding intimacy sex power and communication parenting issues and mental illness Featuring couples of varying ages cultural backgrounds and sexual orientations the cases shed light on both what works and what doesn t work when treating intimate partners Each candid case presentation includes engaging comments and discussion questions from the editor See also Clinical Handbook of Couple Therapy Fourth Edition also edited by Alan S Gurman which provides an authoritative overview of theory and practice

The Intercultural Exeter Couples Model Janet Reibstein, Reenee Singh, 2020-12-02 Increase the efficacy of your treatment interventions in intercultural couples therapy The Intercultural Exeter Couples Model Making Connections for a Divided World Through Systemic Behavioral Therapy provides practitioners with a thorough guide to effectively treating intercultural couples The book consists of a systematic effort to translate systemic ideas that take into account a cultural perspective into a highly useable and practical form The Intercultural Exeter Couples Model also attempts to marry two often distinct forms of practice the systemic and the behavioral Both approaches have much to contribute to effective couples counselling but they are often theoretically siloed This book demonstrates the value of using both approaches simultaneously

This book provides concrete and practical strategies for implementing systemic and behavioral approaches to intercultural couples therapy in a manner consistent with clinical best practice. Rather than ignoring the significant and complex impacts that differing cultures can have on a relationship, The Intercultural Exeter Couple Model puts those differences front and center, encouraging the therapist to engage with the cultural mismatch that can be at the core of many couples' ongoing friction. The book's chapters tackle both the model itself and a variety of interventions covering topics including Teaching couples how to break patterns and prepare them to establish new ones, Training couples to communicate effectively, Establishing new modes of behavior in couples, An explanation of empathic bridging maneuvers, A description of the use of life space explorations. Perfect for clinicians, students, and professors interested in or practicing in the field of couples therapy, The Intercultural Exeter Couples Model provides readers with an in-depth exploration of an increasingly important model of couples therapy and describes in painstaking detail the interventions necessary to achieve positive patient outcomes.

Doing Therapy with Intercultural Couples Sunita Noronha, 2022-04-28. Marital concord between couples from different racial and ethnic backgrounds is an issue that needs serious attention to bridge the vast chasms. America welcomes people from all over the world. People of all religions and ethnic backgrounds come here to study, and migrants arrive here to work. Interracial marriages are common, but the radically different background of each couple can create discords and prove to be bumps on the highway of conjugal life. This can have serious repercussions on the offspring and on the couple and their lives as well. This book seeks to investigate how cultural realities can be addressed within intercultural premarital couples counseling. Using a cultural focus approach, couples' stories around their particular culture and relationship were analyzed. Themes related to relationship, family, and social ties, and parenting bi-cultural and bi-racial children were examined. Issues of religious and social influence, money, race, ethnicity, extended family, immigration, and biases in family of origin are explored, as are roles and responsibilities, communication, respect, trust, and gender stereotyping. The book adopts a pastoral theological approach in working towards a deeper understanding of premarital relationships of partners who represent cultural difference and diversity. In conclusion, recommendations to therapists and care givers for counseling intercultural couples are made.

What Happens in Couple Therapy Douglas K. Snyder, Jay L. Lebow, 2024-07-11. Bringing contemporary couple therapy to life, this casebook candidly illustrates the whys, whos, and how-tos of leading clinical approaches. Well-known contributors provide a window into their work with couples seeking help for a variety of relationship challenges. Cases depict the moment-by-moment process of therapy from the initial assessment and case formulation through the beginning, intermediate, and concluding phases. Themes addressed include working across cultural divides, helping couples living with psychological or medical disorders, and treating interfaith couples, military couples, and same-sex and queer couples. Enhancing the book's utility for course use, the expert editors concisely introduce each case and describe how the approach fits into the broader field.
