Multiculturalism: A Very Short Introduction Ali Rattansi, 2011-09-22 Has multiculturalism failed Is it time to move on What is the alternative Ali Rattansi explores the issues from national identity and social cohesion to cultural fragmentation and political correctness Providing a balanced assessment of the truth and falsity of the charges against multiculturalism he explores new ideas for the future

Racism Ali Rattansi, 2020-03-26 There is often a demand for a short sharp definition of racism for example as captured in the popular formula Power Prejudice Racism But in reality racism is a complex multidimensional phenomenon that cannot be captured by such definitions In our world today there are a variety of racisms at play and it is necessary to distinguish between issues such as individual prejudice and systemic racisms which entrench racialized inequalities over time This *Very Short Introduction* explores the history of racial ideas and a wide range of racisms biological cultural colour blind and structural and illuminates issues that have been the subject of recent debates Is Islamophobia a form of racism Is there a new antisemitism Why has whiteness become an important source of debate What is Intersectionality What is unconscious or implicit bias and what is its importance in understanding racial discrimination Ali Rattansi tackles these questions and also shows why African Americans and other ethnic minorities in the USA and Europe continue to suffer from discrimination today that results in ongoing disadvantage in these white dominant societies Finally he explains why there has been a resurgence of national populist and far right movements and explores their implications for the future of racism

Interculturalism and multiculturalism: similarities and differences Martyn Barrett, 2013-12-11 This book examines the relationship between two policy approaches for managing the cultural diversity of contemporary societies interculturalism and multiculturalism The relationship between these two approaches has been a matter of intense debate in recent years Some commentators argue that they represent two very different approaches while others argue that interculturalism merely re emphasises some of the core elements of present day multiculturalism The debate arises in part because multiculturalism can take a variety of different forms which makes it difficult to identify its key features in order to compare it with interculturalism The debate has gained added momentum from the backlash against multiculturalism in recent years and from the Council of Europe's prominent championing of interculturalism as an alternative approach This book aims to clarify the concepts of interculturalism and multiculturalism and to bring the various arguments together in a way that will assist politicians policy makers practitioners and interested lay people to understand the concerns that are driving the different orientations The book is also intended to facilitate a comparison of the policy implications of interculturalism and multiculturalism To this end each chapter concludes with a concise statement of the

implications for policy that follow from the viewpoint that has been expressed

Multicultural Citizenship Jean-François Caron, François Boucher, 2024-11-29 *Multicultural Citizenship Legacy and Critique* allows the philosopher an opportunity to consider the evolution and transformation of Will Kymlicka's theories from *Multicultural Citizenship A Liberal Theory of Minority Rights* Canonical in the field of multiculturalism Will Kymlicka's work developed an original way of recognizing and accommodating ethnic groups and national minorities through liberal democratic principles This new volume brings together expert scholars to evaluate the impact of Kymlicka's book on their own views and the field's general progression over the past three decades and brings Kymlicka to face new questions challenging multiculturalism and re-evaluate the main ideas of his original theory by reflecting on its development Through engagement with the contributors' chapters Kymlicka ends this edited collection with proposals for new ways of understanding multiculturalism at a time of rising anti-immigration populism and nativist movements This book offers a modern outlook on multiculturalism with contributions from a diverse group of authors as well as Will Kymlicka himself and will be of great interest to scholars and students of migration nationalism minority rights sociology law and politics

British Multicultural Literature and Superdiversity Ulla Rahbek, 2019-07-30 This book explores contemporary British multicultural multi-genre literature Considering socio-political and philosophical ideas about British multiculturalism superdiversity and conviviality Ulla Rahbek studies a broad range of texts by writers from across the majority-minority divide The text focuses on figurative registers and metaphorical richness in multicultural poetry and investigates the interlocked issue of recognition representation and identity in memoirs Rahbek analyses how twenty-first century British multicultural novels both envision and reimagine an inclusive nation and thematise the detrimental effects of individual exclusion on characters' pursuits of the good life She observes the ways that short stories pivot on ambivalent encounters and intercultural dialogue and she reflects on the public good of multicultural literature

The Return of the Native Jan Willem Duyvendak, Josip Kešić, Timothy Stacey, 2023 An in-depth analysis that demonstrates how and why there has been a resurgence of nativist logic It was once thought that liberalism and globalization would consign nativist logics to the fringes of societies and eventually to history But if it ever left nativism has well and truly returned spreading across nations across the political spectrum and from the fringes back into the mainstream In *The Return of the Native* Jan Willem Duyvendak Josip Kesic and Timothy Stacey explore how nativist logics have infiltrated liberal settings and discourses primarily in the Netherlands as well as other countries with strong liberal traditions like the US and France They deconstruct and explain the underlying logic of nativist narratives and show how these narratives are emerging in the discourses of secularism a religious nativism that problematizes Islam and Muslims racism a racial nativism that problematizes black anti-racism populism a populist nativism that problematizes elites and left-wing politics a left nativism that sees religious racial and populist nativists themselves as a threat to national culture By moving systematically through these key iterations of nativism the authors show how liberal ideas themselves are becoming tools for claiming that some

people do not belong to the nation A unique analysis of the most fundamental political transformation of our days this book illuminates the resurgence of the figure of the native who claims the country at the expense of those perceived as foreign
