popular forms of social mobilization during Spain's process of transition to democracy. It focuses on the nature of citizenship that was forged during the period of conflict and mobilisation that characterised Spain from the late 1950s until the late 1980s. It offers a two-pronged exploration of social movements at the time. On the one hand, it provides a detailed analysis of four very different cases of social mobilisation among Catholics, residents, farmers and teachers. It discerns processes of organisation, repertoires of action, collective meaning and interactions with communities and local political actors. On the other hand, it reflects on how the fight over specific issues and the use of similar tactics generated shared interpretations of what it meant to be a citizen in a democracy.

Interrelaciones y difusión de la protesta entre movimientos sociales. La influencia de los movimientos sociales previos en el 15M Betancor Nuez, Gomer, 2024-11-28. ¿Qué papel tienen las redes sumergidas en nuevos ciclos de acción colectiva? ¿Cómo se produce la influencia y los efectos de contagio entre movimientos sociales a través del tiempo? En esta obra se analizan los patrones de difusión de la protesta y las interrelaciones dentro de la comunidad de movimientos sociales alternativos, destacando los procesos de aprendizaje colectivo que desencadenaron el 15M como un fenómeno de desborde político en España. La obra aborda la pregunta central sobre los procesos detrás de la difusión, influencia e interrelación entre movimientos que llevaron al surgimiento del Movimiento 15M. Explora cómo los movimientos sociales en Madrid transfieren innovaciones, legados y aprendizajes a través de diferentes procesos de difusión, interrelaciones y cambios. El análisis se estructura en torno a tres ciclos previos al 15M: el ciclo 2000-2004 marcado por la emergencia del Movimiento por una Justicia Global; el ciclo 2005-2008 con un cambio de contexto y la relevancia de redes sumergidas y juveniles; y el ciclo 2009-2011 caracterizado por redes colectivas que sostuvieron una mesomovilización influyente en el estallido del 15M. El libro problematiza la falta de atención en España a los procesos sociohistóricos de movilización social y cambio cultural desde un enfoque diacrónico. Aporta una visión empírica crucial para comprender el papel de los movimientos sociales en la realidad política contemporánea, arrojando luz sobre las dinámicas temporales de movilización de onda larga y las interacciones entre movimientos, sociedad civil, opinión pública y Estado. En ese sentido, abre una nueva línea de investigación en España sobre la relevancia de los legados y la influencia entre diferentes movimientos sociales, contribuyendo a una comprensión global de los procesos de interacción que preceden grandes oleadas de movilización.
