Excel 2007 For Dummies Quick Reference John Walkenbach, Colin Banfield, 2007-01-06 Fast answers to frequently asked questions Excel 2007 essentials at your fingertips If you like your answers quick and your information up to date look no further With this concise superbly organized reference you ll quickly find just what you need to know about navigating the new interface using the Ribbon and Quick Access toolbar saving protecting and recovering workbook files entering and editing data creating formulas and functions and much more *Excel 2007: The Missing Manual* Matthew

MacDonald, 2006-12-27 Microsoft Excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft s documentation is as scant as ever so even if users can find advanced features they probably won t know what to do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It s a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information **Excel**
