THE FINANCIAL ECONOMY MYTHS: PRIVATE PLACEMENT

PROGRAM Sir Patrick Bijou, The myth of financial intermediation has been invented to distract attention from the natural function of banks When we think about banks gathering money from depositors to give to investors the objective function of banks is completely hidden from public view Economic textbooks ignore these functions and macroeconomic models do not mention the banking sector in terms of private placement programs I discuss the various types of these programs and how you put that invaluable knowledge to good use I aim to provide a concise view of the mechanisms in place and the detailed protocol and structure I am fortunate to be joined by leading experts in the field of these programs and how they work to yield a return for the investor my guide will simplify the confusion and assist in greater comprehension I reveal what banks are not prepared to divulge as it is clear that these investment opportunities are by a few for a few On the whole and notwithstanding these sophisticated investments strategies and the use of fractional reserve banking and leverage and arbitrage techniques you will have then drawn a watertight net around the first thing that bugs you about the difficult part but the beginning is only the journey **Financial Transaction Manager Technical Overview** Craig
