Mudpacks And Prozac Murphy Halliburton, 2009-08-31 People seeking psychiatric healing choose from an almost dizzying array of therapies from the medicated mud packs of Ayurveda to the pharmacopeia of Western biomedicine to the spiritual pathways of the world's religions How do we choose what do the treatments offer and how do they cure In *Mudpacks and Prozac* Murphy Halliburton investigates the very different ways in which Ayurvedic Western and religious Christian Muslim and Hindu healing systems define psychiatric problems and cures He describes people's embodied experiences of therapies that range from soothing to frightening and explores how enduring pleasure or pain affects healing And through evocative portraits of patients in Kerala India a place of incredible cultural diversity that has become a Mecca for alternative medicine Halliburton shows how sociopolitical changes around the globe may be limiting the ways in which people seek and experience health care with negative effects on our quality of health and quality of life *The Sedated Society* James Davies, 2017-01-23 This edited volume provides an answer to a rising public health concern what drives the over prescription of psychiatric medication epidemic Over 15% of the UK public takes a psychiatric medication on any given day and the numbers are only set to increase Placing this figure alongside the emerging clinical and scientific data revealing their poor outcomes and the harms these medications often cause their commercial success cannot be explained by their therapeutic efficacy Chapters from an interdisciplinary team of global experts in critical psychopharmacology rigorously examine how pharmaceutical sponsorship and marketing diagnostic inflation the manipulation and burying of negative clinical trials lax medication regulation and neoliberal public health policies have all been implicated in ever rising psycho pharmaceutical consumption This volume will ignite a long overdue public debate It will be of interest to professionals in the field of mental health and researchers ranging from sociology of health to medical anthropology and the political economy of health *Naturopathy in South India* Eva Jansen, 2016-08-15 In *Naturopathy in South India* Clinics between Professionalization and Empowerment Eva Jansen offers a rich ethnographic account of current naturopathic thinking and practices and examines its complex history multiple interpretations and antagonisms This book presents two major forms of Naturopathy in contemporary South India On one side a scientific professional branch models themselves after allopathic practitioners On the other side a group of ideologists uses an approach to patient treatment that is grounded in the principles of simplicity transparency a critique of globalization and a focus on patient empowerment Jansen discusses the current political and medical clash between Naturopaths in South India from the perspectives of practitioners employees the media and patients **Eating Drugs** Stefan Ecks, 2014 A Hindu monk in Calcutta refuses to take his psychotropic medications His psychiatrist explains that just as his body needs food the drugs are nutrition for his starved mind Does it matter how or whether patients understand their prescribed drugs Millions of people in India are routinely prescribed mood medications Pharmaceutical companies give doctors strong incentives to write as many prescriptions as possible with as little awkward

questioning from patients as possible Without a sustained public debate on psychopharmaceuticals in India patients remain puzzled by the notion that drugs can cure disturbances of the mind While biomedical psychopharmaceuticals are perceived with great suspicion many non biomedical treatments are embraced Stefan Ecks illuminates how biomedical Ayurvedic and homeopathic treatments are used in India and argues that pharmaceutical pluralism changes popular ideas of what drugs do Based on several years of research on pharmaceutical markets Ecks shows how doctors employ a wide range of strategies to make patients take the remedies prescribed Yet while metaphors such as mind food may succeed in getting patients to accept the prescriptions they also obscure a critical awareness of drug effects This rare ethnography of pharmaceuticals will be of key interest to those in the anthropology and sociology of medicine pharmacology mental health bioethics global health and South Asian studies

Depression in Kerala Claudia Lang, 2018-06-18 This book examines depression as a widely diagnosed and treated common mental disorder in India and offers a significant ethnographic study of the application of a traditional Indian medical system Ayurveda to the very modern problem of depression Based on over a year of fieldwork it investigates the Ayurvedic response to the burden of depression in the Indian state of Kerala as one of the key processes of the local appropriation or glocalization of depression More broadly Lang considers What happens with the category of depression when it leaves the West and travels to South Asia How is depression appropriated in a South Asian society characterized by medical pluralism She explores on the level of ideas institutions and materialities how depression interacts with and changes local worlds clinical practice and knowledge and subjectivities As depression travels from the West to South India its ontology Lang argues multiplies and thus leads to what she calls depression multiple
