to create images that define their identities The book begins with a brief sociohistorical overview of Japan and Peru describing the conditions in both nations that resulted in Japanese immigration to Peru and concluding in contemporary times Tsurumi traces the evolution of the terms Orient and Japanese Oriental and the depiction of Asians in Modernista poetry and in later works by Octavio Paz and Jorge Luis Borges She analyzes the images of the Japanese portrayed in individual works of modern Peruvian narrative comparing them with those created in Japanese Peruvian poetry The book concludes with an appendix containing excerpts from Tsurumi s interviews and correspondence in Spanish with writers and poets in Lima and Mexico City
