

The image shows a close-up of a mosque's dome, which is covered in a complex pattern of green, white, and gold tiles. Below the dome, a band of Arabic calligraphy is visible. The lower part of the image shows a plain, light-colored wall with a small, dark, arched window. The sky is a clear, deep blue.

Hiskett, 1994 This is an up to date comprehensive survey tracing the development of Islam in Africa from the 7th century AD to the present day It covers the whole continent and gives a detailed account of the Sufi mystical cosmology and the opposition to it and analyzes long and short term affects of the impact of European colonialism on Islamic Africa Following a survey of the state of Islam in present day African nation states the book concludes with a study of the rise of Islamic fundamentalism and its clash with African nationalism **Muhammad's Mission** Tilman Nagel, 2020-07-06 Combining vast erudition with a refusal to bow before the political pressures of the day Muhammad s Mission Religion Politics and Power at the Birth of Islam by Professor Tilman Nagel one of the world s leading authorities on Islam is an introduction to three inseparable topics the life of Muhammad 570 632 CE the composition of the Koran and the birth of Islam While accessible to a general audience it will also be of great interest to specialists since it is the first English translation of Professor Nagel s attempt to summarize a lifetime of research on these topics The Introduction Chapters 1 2 and Appendix 1 provide essential historical background on the Arab tribal system and Muhammad s position within that system the political situation in pre Islamic Arabia the history of Mecca and pre Islamic Arabian religions Chapters 3 5 cover the beginnings of the revelations that Muhammad claimed to be receiving from Allah paying special attention to the influence on Muhammad of the hanifs a group of pre Islamic pagan monotheists attested in the earliest Islamic sources The hanifs claimed to trace their religion back to the putative original monotheism of Abraham from which they claimed Jews and Christians had deviated by among other things abandoning animal sacrifice Chapter 6 explains how Muhammad s religious message included a thinly veiled claim to have the right to political power over Mecca a claim that exacerbated tensions with his own clan and led eventually to his expulsion from Mecca as recounted in Chapter 7 Chapters 8 10 describe the impact of the hijra on the evolution of Islam Seeing himself as the true heir to Abraham and the prophets who followed him Muhammad would demand allegiance from Jews and Christians as recounted in Sura 2 and other Medinan suras He would initiate a war against Mecca not in self

defense but in order to gain control over the Kaaba the central hanif shrine and the new qibla or direction of prayer for the Muslims The Muslim victory at the Battle of Badr in 624 would help to shape a new ideal of a militarized religiosity in which those who waged war under Muhammad s command would attain the rank of true believers while those converts who refused to make hijra and to fight for Muhammad were relegated to the lower rank of mere Muslims as Suras 8 and 49 make clear Muhammad s war against Mecca alienated many of his Medinan followers the ansar The refusal of the Jews to convert to Islam combined with the close connection of the Jews to the ansar led Muhammad to make war on the Jews as well as the Meccans The surrender of Mecca in 630 Chapter 11 did not lead to the end of war for the aggressiveness and military success of Muhammad s movement had made it attractive to a slew of new converts whose desire for booty had to be placated Sura 9 promulgated near the end of Muhammad s life served as a broad declaration of war against polytheists Jews and Christians Chapter 12 describes the evolution of Islam late in Muhammad s life into a religious warriors movement that sought to extend the rule of Islam over the entire inhabited world Chapter 13 covers the final pilgrimage and death of Muhammad while Chapters 14 20 describe the development of Islamic dogma surrounding the figure of Muhammad and its implications for politics in the Islamic world and interfaith relations with non Muslims up till the present day The book concludes with appendices in which Nagel summarizes the state of scholarship regarding the life of Muhammad Appendix 2 and the tensions between competing varieties of Muslim recollection of Muhammad Appendix 3 Muhammad s Mission Religion Politics and Power at the Birth of Islam is an erudite and authoritative guide to events of world historical importance by a scholar who has spent a lifetime mastering the primary sources documenting the birth of Islam

The Transmission and Dynamics of the Textual Sources of Islam Nicolet Boekhoff-van der Voort, Kees Versteegh, Joas Wagemakers, 2011-09-05. For many Muslims, the textual sources of Islam provide the guiding principles on which they base their beliefs. These texts have also been studied by Western scholars of Islam for centuries. Most of their work has focussed on the historicity of the texts, often at the expense of the study of Muslims' highly diverse interpretation and application of these sources in everyday life. This volume provides new insights into the transmission of these sources, primarily the Qur'an and the Hadith, and combines this with the dynamics of these scriptures by paying close attention to how believers in the Muslim world as well as the West interpret and apply them. As such, this volume provides a fascinating overview of how the sources of Islam are dated, debated and negotiated. Contributors include Nicolet Boekhoff-van der Voort, Gregor Schoeler, Maribel Fierro, Fred Leemhuis, Claude Gilliot, Andreas G. R. Jens Scheiner, Michael Lecker, Maher Jarrar, Gerard Wiegers, Uri Rubin, Kees Versteegh, Joas Wagemakers, Herbert Berg, Abdulkader Tayob, Roel Meijer, Martijn de Koning, Carmen Becker and Ulrike Mitter.

The Quran, Epic and Apocalypse Todd Lawson, 2017-10-05. How do people understand the Quran to be divine revelation? What is it about the text that inspires such devotion and commitment in the reader/believer? Todd Lawson explores how the timeless literary genres of epic and apocalypse bear religious meaning in the Quran, communicating the sense of divine presence, urgency and truth. Grounding his approach in the universal power of story and myth, he embarks upon a fascinating inquiry into the unique power of one of the most loved, widely read and recited books in the world.

Post-Tsunami Reconstruction in Indonesia Marjaana Jauhola, 2013-06-26. This book offers a critical analysis of gender mainstreaming initiatives in the post-tsunami context in Indonesia. Aiming to challenge the terms of the debate in gender mainstreaming and disaster reconstruction efforts, Jauhola offers an important contribution for the discussion of what feminisms and disasters could be. The work provides an in-depth analysis of three governmental practices of gender mainstreaming: the use of the concept pair sex/gender, the use of gender analysis, and the use of project management tools and local subversion that challenges the

potential normative violence of gender mainstreaming Providing feminist intersectional reading of gender mainstreaming the book aims to illustrate that this framework does not lack political alternatives but rather it offers an alternative focus for feminism and for the re conceptualisation of political and provides tools for practitioners of aid aiming to come to grips with the complexity of gender equality policy agenda and its potential violent social consequences in global politics Drawing on extensive field research in Aceh this text is one of the first book length studies and thus provides a significant addition to Indonesian literatures on intersectional analysis of gender religion heteronormativity and feminist subversive practice It is a vital resource for those interested in understanding global interconnections of localised disaster and conflict reconstruction

in numerical analysis newton s method also known as the newton raphson method named after isaac newton and joseph raphson is a root finding algorithm which produces successively better approximations to the roots or zeroes of a real valued function the most basic version starts with a single variable function f defined for a real variable x the function s derivative f' and an initial guess x_0 for a root of f if the function satisfies sufficient assumptions and the initial guess is close
