The Chaos Machine Max Fisher, 2022-09-06 Finalist for the Helen Bernstein Book Award for Excellence in Journalism From a New York Times investigative reporter this authoritative and devastating account of the impacts of social media New York Times Book Review tracks the high stakes inside story of how Big Tech's breakneck race to drive engagement and profits at all costs fractured the world *The Chaos Machine* is an essential book for our times Ezra Klein We all have a vague sense that social media is bad for our minds for our children and for our democracies But the truth is that its reach and impact run far deeper than we have understood Building on years of international reporting Max Fisher tells the gripping and galling inside story of how Facebook Twitter YouTube and other social network preyed on psychological frailties to create the algorithms that drive everyday users to extreme opinions and increasingly extreme actions As Fisher demonstrates the companies founding tenets combined with a blinkered focus on maximizing engagement have led to a destabilized world for everyone Traversing the planet Fisher tracks the ubiquity of hate speech and its spillover into violence ills that first festered

in far off locales to their dark culmination in America during the pandemic the 2020 election and the Capitol Insurrection Through it all the social media giants refused to intervene in any meaningful way claiming to champion free speech when in fact what they most prized were limitless profits The result as Fisher shows is a cultural shift toward a world in which people are polarized not by beliefs based on facts but by misinformation outrage and fear His narrative is about more than the villains however Fisher also weaves together the stories of the heroic outsiders and Silicon Valley defectors who raised the alarm and revealed what was happening behind the closed doors of Big Tech Both panoramic and intimate The Chaos Machine is the definitive account of the meteoric rise and troubled legacy of the tech titans as well as a rousing and hopeful call to arrest the havoc wreaked on our minds and our world before it's too late Welcome to the Future Kathryn Hulick,2021-10-26 Have you ever wondered what the future may look like In this book you'll explore 10 ways technology could alter our way of life The challenge for you is to decide which changes you want for yourself and the world In the future will we teleport from place to place keep dinosaurs as pets or 3D print our dinner Will we live on Mars or upload our brains to computers Could we solve climate change by making all our energy from mini stars we build here on earth This fascinating and thought provoking book from science writer Kathryn Hulick explores the possible futures humanity will face and how we will live as the world around us changes beyond our recognition From genetic engineering and building floating colonies in space to developing telepathic technology and bionic body alterations this engagingly illustrated book looks into the possible future technologies which will shape how we live and how we adapt to the challenges of the future In this book you'll meet the scientists working to bring science fiction to life and learn how soon we might have amazing new technology You'll also delve deep into questions about right and wrong Just because we can do something doesn't mean we should How can we build the best possible future for everyone on Earth **Lonely Planet's Wonders of the World** Lonely Planet,2019-10-01 Extraordinary You bet Elusive Not quite From Antarctica and the Amazon to Victoria Falls and the Great Wall of China Lonely Planet reveals 101 spectacular sights and how to see them on any budget Inspiring and practical with expert advice on how and when to visit where to stay and a range of itineraries you'll discover how to visit the world's wonders in a way that suits you This collection includes both natural and human made sights across the world We've selected locations that represent the best and most extraordinary places to be seen There are sights that most people have heard of the Taj Mahal Angkor Wat and the Great Wall of China But also less famous sights that cannot fail to captivate the entwined tree bridges of Meghalaya in India the intricate Islamic architecture of Naqsh-e Jahan in Iran and the massive Buddhist temple of Borobudur in central Java We've added museums with remarkable collections of wonders too such as the Rijksmuseum in the Netherlands and the Smithsonian Institution in Washington D C The planet's natural wonders are no less awesome giant trees in California cascading lakes in Croatia multi coloured hills in China great waterfalls and natural phenomena like the wave of cherry blossom that sweeps across Japan each spring and the light show of the auroras across the planet's northern and southern

extremities The book also explains how you can visit each wonder whatever your budget We've compiled a guide to each one that recommends the best times to visit how to get there and where to stay and eat however much you want to spend About Lonely Planet Lonely Planet is a leading travel media company and the world's number one travel guidebook brand providing both inspiring and trustworthy information for every kind of traveller since 1973 Over the past four decades we've printed over 145 million guidebooks and grown a dedicated passionate global community of travellers You'll also find our content online on mobile video and in 14 languages 12 international magazines armchair and lifestyle books ebooks and more Important Notice The digital edition of this book may not contain all of the images found in the physical edition
