

A woman with brown hair is sleeping peacefully in a bed. She is wearing a white t-shirt and is covered with a white blanket. Her head is resting on a white pillow, and her arms are crossed over her chest. The bed has white linens. In the background, there is a white wall and a green plant. The image is framed by a green geometric shape on the left and bottom, with yellow diagonal lines.

An Audience of One Srinivas Rao,2018-08-07 The creator of the Unmistakable Creative podcast makes a counterintuitive argument By focusing your creative work on pleasing yourself you can increase your productivity happiness and eventually paradoxically the size of your audience Creating for your own pleasure whether you re writing a novel composing songs or painting a landscape can seem pointless It s tempting to focus on pursuing money and fame rather than the process itself But as Srini Rao warns creating then turns into a chore that can harm your self esteem and suck the pleasure out of life rather than being a source of joy Rao host of the podcast The Unmistakable Creative argues that we should counter this thinking by intentionally creating art for ourselves alone an audience of one In this book he shares the fascinating true stories of creatives who took this path along with actionable tips and the research of creativity experts You ll learn for example How

Oprah's intentional focus on her own work rather than the opinions of everyone else catapulted her into one of the most popular talk shows of all time. How being process driven can not only help you produce more work but can make you happier outside of your creative time. How to put together a creative team of rivals whose feedback can help you hone your craft and filter out useless feedback. By playing to an audience of one we can find more happiness, increased productivity and a greater sense of community.

Your Happiness Was Hacked Vivek Wadhwa, Alex Salkever, 2018-06-26. Wadhwa and Salkever have written a great book to help us understand our addiction to technology and suggest what we can do about it. Andre Oppenheimer, columnist for the Miami Herald, joint winner of the 1987 Pulitzer Prize. Technology, your master or your friend? Do you feel ruled by your smartphone and enslaved by your email or social network activities? Digital technology is making us miserable, say bestselling authors and former tech executives Vivek Wadhwa and Alex Salkever. We've become a tribe of tech addicts and it's not entirely our fault. Taking advantage of vulnerabilities in human brain function, tech companies entice us to overdose on technology interaction. This damages our lives, work, families and friendships. Swipe-driven dating apps train us to evaluate people like products, diminishing our relationships. At work, we email on average seventy-seven times a day, ruining our concentration. At home, light from our screens is contributing to epidemic sleep deprivation. But we can reclaim our lives without dismissing technology. The authors explain how to avoid getting hooked on tech and how to define and control the roles that tech is playing and could play in our lives. And they provide a guide to technological and personal tools for regaining control. This readable book turns personal observation into a handy action guide to adapting to our new reality of omnipresent technology. Technology is a great servant but a terrible master. This is the most important book ever written about one of the most significant aspects of our lives: the consequences of our addiction to online technology and how we can liberate ourselves and our children from it. Dean Ornish, New York Times bestselling author of *Undo It*.

Tricks of the Trade Janice Lieberman, Jason Raff, 1998. Written by two of America's savviest consumer investigators, this book offers shopping strategies, insider secrets of dubious sales techniques and tips for making an informed purchase. Focusing on the ten most common major purchases from jewelry to automobiles to electronics, Janice Lieberman and Jason Raff will save you money. The book also features some of the behind-the-scenes stories of their undercover investigations. You won't believe some of the scams, cons and swindles they uncover, but you'll be glad they did.

It's About Damn Time Arlan Hamilton, Rachel L. Nelson, 2022-02-15. A hero's tale of what's possible when we unlock our potential, continue the search for knowledge and draw on our lived experiences to guide us through the darkest moments. Stacey Abrams. From a Black gay woman who broke into the boys club of Silicon Valley comes an empowering guide to finding your voice, working your way into any room you want to be in and achieving your own dreams.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FORTUNE In 2015, Arlan Hamilton was on food stamps and sleeping on the floor of the San Francisco airport with nothing but an old laptop and a dream of breaking into the venture capital business. She couldn't understand why people starting companies all looked the

same White and male and she wanted the chance to invest in the ideas and people who didn't conform to this image of how a founder is supposed to look Hamilton had no contacts or network in Silicon Valley no background in finance not even a college degree What she did have was fierce determination and the will to succeed As much as we wish it weren't so we still live in a world where being underrepresented often means being underestimated But as someone who makes her living investing in high potential founders who also happen to be female LGBTQ or people of color Hamilton understands that being undervalued simply means that a big upside exists Because even if you have to work twice as hard to get to the starting line she says once you are on a level playing field you will sprint ahead Despite what society would have you believe Hamilton argues a privileged background an influential network and a fancy college degree are not prerequisites for success Here she shares the hard won wisdom she's picked up on her remarkable journey from food stamp recipient to venture capitalist with lessons like The Best Music Comes from the Worst Breakups Let Someone Shorter Stand in Front of You The Dangers of Hustle Porn and Don't Let Anyone Drink Your Diet Coke Along the way she inspires us all to defy other people's expectations and to become the role models we've been looking for Praise for It's About Damn Time Reading Arlan Hamilton's It's About Damn Time is like having a conversation with that frank bawdy friend who somehow always manages to make you laugh get a little emo and ultimately think about the world in a different way The book is warm witty and unflinching in its critique of the fake meritocracy that permeates Silicon Valley Shondaland

Present Shock Douglas Rushkoff, 2013-03-21 People spent the twentieth century obsessed with the future We created technologies that would help connect us faster gather news map the planet and compile knowledge We strove for an instantaneous network where time and space could be compressed Well the future's arrived We live in a continuous now enabled by Twitter email and a so called real time technological shift Yet this now is an elusive goal that we can never quite reach And the dissonance between our digital selves and our analog bodies has thrown us into a new state of anxiety present shock
